## **Gateway to College Program at North Shore Community College**

Stoneham High School has partnered with the Gateway to College program at North Shore Community College to offer struggling students an option to earn their high school diploma and meaningful college credits. Gateway to College is a unique dual enrollment opportunity for students who either have not experienced success in the traditional high school setting or are looking for a new opportunity to excel while still in high school. Students attend all classes on the Northshore campus, where they are provided with intensive support while earning a Stoneham HS diploma and free college credits that can be applied towards an associate degree or credit certificate program at NSCC, or transferred to a four-year college or university. Gateway to College graduates develop the important skills and habits necessary for success in college and to compete in today's changing job market. If you are between 16-21 years old and have a strong desire to earn your diploma in a nontraditional setting, please see your school counselor for more information.

## **Communication**

We kindly ask that you first utilize these resources to find the information you are seeking before calling the Main Office.
