## EssayService Overview

**Essayservice.com Review Essayservice.com Review** Another thing that added to our suspicions and made us write a bad Essayservice.com review was the lack of feedback from our writer and customer service. Even though we could communicate with the author directly, they never replied to our messages. Customer service went radio silent as well.

## Contract completion

## Company Overview

College life has never been easy, as it is tightly related to the essay writing and accomplishment of other assignments. Fortunately, students who do not have corresponding writing skills, or just a desire to work on these types of tasks, have an opportunity to browse the web and get the assistance of reputable and trustworthy academic writing services.

This time, I want to present a detailed EssayService review, which will help you clarify information about the company, its peculiarities, and features that make it unique and different from others. As mentioned on the website, the team of professionals are ready to offer an unlimited number of services that start from a traditional essay and end with a thesis. Every single detail and characteristic seems so tempting, but the reality is completely different. So, let's have a closer look at some features and services.

## Pros and Cons

Similar to other academic writing companies, EssayService has a variety of advantages and

downsides. Browse the Internet, check out a comprehensive EssayService.com review, search for the comments and reviews of previous customers to make sure the platform is cost-effective, legit, and safe.

## **Prices and Deadlines**

According to the EssayService reviews, the company provides users with an extended range of services. The team of experienced writers are ready to accomplish the most complex types of assignments in a matter of hours. The price, at the same time, is quite competitive. There are numerous factors that will predetermine the final cost of the paper, including its academic level, number of pages, type, and deadline. A single page of a written assignment can be priced \$11, 4 up to \$14,3.

## **Paper Quality and My Experience Using This Service**

If you are a college student, you will understand me right from the first words. The first thing a learner pays attention to is cost. Is EssayService.com legit? Will you obtain quality tasks delivered in time? Won't you waste your time dealing with the company? There are questions of secondary importance if the price is tempting. Well, I have explained my motivation and can keep sharing information about my experience ordering essays online.

Several weeks ago, I placed an order, asking to accomplish my task in three days. The topic was quite trivial, and I didn't specify complicated requirements. The only request was to provide relevant examples and up-to-date statistics. How great was my disappointment when the due date approached, and the assignment was not delivered! My resentment aggravated the moment I started reading an essay. To tell that it was not quality is to say nothing. Lots of mistakes, typos, and inaccuracies made the paper look terrible, and it seems that the writer wasn't a native speaker.

I contacted the support team right when I received the work done and asked for a revision. However, no significant changes were made. Consequently, I am completely dissatisfied with the cooperation and cannot recommend the platform.

## **Refund and Revision Policies**

Following the information mentioned on the home page, the company cares for its reputation, providing users with a complete money-back guarantee. Additionally, users have a chance to get free revisions several days after the deadline. Fortunately, there was no need to ask for a refund, but as stated in numerous comments, none of the customers get any.

## **Support and Communication**

The functioning of the customer support service is one of the most interesting points in any of the EssayService.com reviews. The experiences of users are so different that it is impossible to make a certain conclusion. Some customers are 100% satisfied with helpful and supportive staff, while others could not contact the representative of the support group for hours. I used a live chat, which was quite beneficial, so I have no reason to complain about it.

## Conclusion

Comparing the service with alternative options, it is possible to tell that it offers competitive services at reasonable costs. However, the outcomes of the cooperation can never be predicted.
