

## IATI Community Call

### Overview / ideas:

- Once a month, 1 hour
- Friendly, welcoming and encouraging
- Show and tell - why is it relevant to others? It has to be related to IATI.
- Assume some prior knowledge but also be welcoming and accessible - speak to a wider audience if you can, geek out if you must :)
- Be practical; don't volunteer other people for work
- Community-led and focused - talk about what you are doing
- Record and put on YouTube unless people can't have things be public

---

**Call 2.0 -- Thursday 29th August 2020, 1400 UK time ([convert to your own time zone here](#))**

**Vote on your preferred date/time here:**

<https://discuss.iatistandard.org/t/community-tech-call-2-vote-to-decide-when/1814>

### **(10 min) INTRODUCTION**

We can discuss the purpose of the call and the overview principles above, and adjust as necessary.

### **(40 min) DONE/DOING**

In this section, you can talk about stuff you have already made, or are in the process of making (with something already to present). Got something to present? Add your name and what you want to present here! Please default to 5 mins unless you really need more! That way, we will all have time to discuss after your presentation.

- Andy Lulham - tweeting dataset issues with [@iaticanary](#)
- Mark Brough - importing and using IATI results data in Liberia
- ~~Siem Vaessen - [launching the new IATI Datastore](#) (5 mins)~~

### **(10 min) REFLECTIONS**

- How was the call?
- What should we do differently next time?

---

**Call 1.0 -- Wednesday 17 July 2020, 1300 UK time ([convert to your own time zone here](#))**

**URL TO JOIN CALL:** <https://meet.google.com/nhw-tcja-grv>

### **(10 min) INTRODUCTION**

We can discuss the purpose of the call and the overview principles above, and adjust as necessary.

**(XX min) DONE/DOING**

- Mark Brough - granularity in financial IATI data (5 min):  
<http://brough.io/pwyf-visualisation/>
- Wendy Rogers - Developing the vision for the humanitarian 'Digital Platform' (5 mins)
- ~~Andy Lulham - tweeting dataset issues with @iaticanary (5 mins)~~

**(XX min) WOULD LIKE TO DO**

In this section, you can talk about stuff that you would like to do, or are in the process of making (but maybe with nothing concrete to show so far). Remember: keep it practical, and don't volunteer others for work!

- YOUR NAME HERE - YOUR PRESENTATION NAME HERE (5 min)

**(10 min) REFLECTIONS**

- How was the call?
- What should we do differently next time?
