

Teachers,

As the year comes to end, I encourage you to think about items and/or materials that you may need to save from Savvas for the next school year. You might be thinking to yourself, “What exactly does this mean?” Below you will find specific points to consider, regarding the Savvas platform, as we prepare to close out this school year.

- Any student work that was done through the Savvas platform will be deleted as of July 1st. If for any reason you think you will need to keep student work, you will want to capture/record this information somewhere other than the Savvas platform.
 - This applies if you assigned work through the Google Classroom integration.
- At the end of each year (to reiterate this will be July 1st this year) Savvas will reset for the upcoming school year, and any former student work will be gone.

Again, on July 1st, the 2021-22 information will be removed from the Savvas platform. It was important to our team that this information be shared with you in a timely manner, so you can then take necessary steps to save any information that you may want for the next school year.

As I may not have the opportunity to reach everyone again this year, I wanted to thank you for all your hard work throughout this crazy year. I will continue to support you next year with technology issues that may arise.

Have an amazing summer!

Wendy Elkins
