

# “MY SCIENTIFIC SUMMER”

homework grade

Think of everything you did this summer and choose one thing you did that is “scientific”. Write two complete paragraphs about this (Paragraph 1 = what you did; Paragraph 2 = how it relates to science). In addition, include a related Google image (or even better, a picture you took!) along with it.

This should

- ☐ Be turned in on a Google Doc on Google Classroom (Assignment #1)
- ☐ Have a title
- ☐ Be written in complete sentences
- ☐ Be at least 2 paragraphs long (5-6 sentences each)
- ☐ Include proper spelling, grammar and punctuation
- ☐ Have a google image copied and pasted onto the same document

*Some scientific summers from last year included baking/cooking, fishing, monitoring chemical levels in their pool, stargazing, exploring for critters at the beach, going on roller coasters, sailing, working in their garden, flying on a plane, playing a sport, etc.*
