

To Daniel Shirley of NorCal Organic,

Going through your website, I noticed the different products you sell like the Pea protein and Peanut butter Protein powder, these products are the highlight of your business but have yet to be widely known to people looking for your specific product.

Offering services to help see this business thrive amongst all the other businesses in this specific niche is a goal I am looking forward to achieving. In the past, by using social media and marketing tactics, I increased attention monetization for a restaurant business that focused on supporting a nutritional lifestyle.

Getting your business to find its true potential with the skills I have obtained, whether through social media, improving website SEO, or a problem that requires a marketing skill, will take priority

If you want to discuss how we can work together to grow your sales, email me your availability within the next few days. Thank you.

Warm regards, Marco Holder
