

Scrab.in Roadmap

This is our roadmap, not big , but we want to keep the extension as simple as possible as this is one of the most important points of it. Here you will see what we will start working on in September and what we want to accomplish. For any addition to it please send an email to till.landiers@scrab.in with subject [RoadMap Feature Suggestion] name - {email} and we will take care of them.

1. Adding ChatGPT in other features to help users create: (ETA : Mid October)
 - a. Invite messages
 - b. First Degree messages
 - c. Messages to events/groups
2. Adding Scheduling feature (ETA: December 2024)
 - a. Users will be able to set up and schedule so Scrab.in will work automatically based on that schedule, doing invites and other actions in specified timeframes.
3. [New Feature] - Add reply functionality to a post with a simple click based on different prompts & use-cases
 - a. Users will be able to reply to a comment directly on a LinkedIn post using AI , crafting awesome replies and engaging more with your own audience.
4. [Integrations] (Estimated Start work on January 2025)
 - a. We will work on native integrations with CRM's and also Zapier, Make and N8N
