ABOUT

The R Stands for Redemption is a Gen, SFW, for-charity zine dedicated to exploring Damian Wayne in canon. If there is enough interest, the zine will go physical. Charity TBD.

FAQ

Can you explain the theme of the zine?

The R Stands for Redemption aims to show Damian Wayne in canon settings, whether it be in comics, movies, or video games. In line with the title, we'd like to see pieces that talk about his growth as a character given his history and the many trials he has gone through. The zine is SFW and Gen, and allows the exploration of different familial and platonic bonds Damian has formed in his stories.

What are the zine specs? How many applicants do you plan on accepting?

A5, perfect bound. The number of applicants we will accept will depend on the results of the interest check.

How will contributors be compensated?

If we make enough sales, we will be able to compensate our contributors with the zine's full bundle. Otherwise, we aim to at least be able to provide them with a physical copy, along with any digital goods. Remaining proceeds will be donated to charity.

Where will communication take place?

All communication will take place on Discord, so you must have an account to be part. However, we will also be forwarding important announcements via Email.

What will be expected of accepted applicants?

We will share the guideline details to our contributors once they're on board, but everyone will be required to create an original, unpublished piece based on a pitch they will give. Artists will be expected to create an illustrated, fully rendered piece, merch artists will create designs for the merchandise they are assigned to, while writers will be expected to write a story with a 3K word count limit.

Do we need Damian Wayne content to apply?

Not necessarily, but it is highly encouraged so we have a good grasp of how you'll portray the character. See our [Application Guidelines Section](#) for more details.

How will you judge applications?

We will judge applications based on the samples you apply with. We will not be screening applicants based on their social media activity. The moderators respect everyone's decision to consume and create whatever fictional content they want in their own space and time. However, applications should reflect the zine's Gen and SFW themes as much as possible.
