2. Part 3 of Yor Forger transforming, now at about 75% finished. Now on all fours, fur has grown over most of her body as her back has changed enough to force her to all fours for even a moment, her chest also having changed in earnest, her leggings shredding as her tail finally tears through them, and her muzzle starting to form. Her face has a look of exasperation despite the changes, as she's still in control and simply wanting the transformation to be done with now. And 2 panels of her finishing her muzzle grow.

4. The scene takes place in an empty field on a full moon night, but the characters are surrounded by a small ring of flowers. Frieren the elf mage is on all fours, her dress discarded, and her body covered in hair, growing bulkier and more monstrous with every moment. Her feet are mid change, but her chest, neck, ears, and thighs are fully wolfish and covered with silver white fur. Her tail is beginning to grow too, and her face is a mask of pain and rage as she fights for control through the agony.

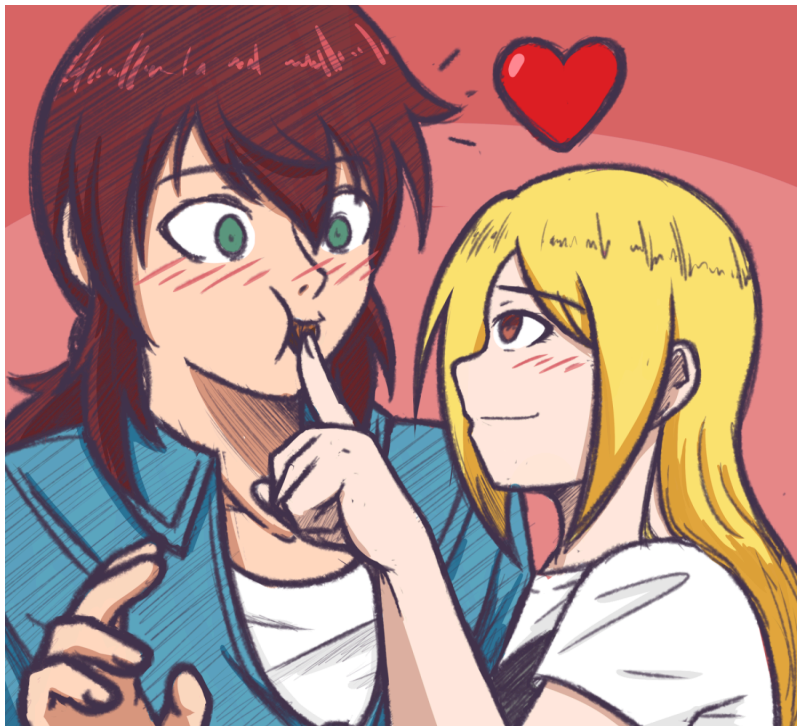

Kneeling at her side is the red-haired mage Flamme, her master, gently petting her down her changing back with a reassuring smile on her face as she says: "With time, and with practice, you'll master both your mana *and* your curse." **“Werewolf Frieren”**

5. Miss Kobayashi going into heat while transforming into a werewolf and begging Tohru for relief **“Werewolf Kobayashi”**

6. I'm thinking of an "Aftermath" kind of thing It backfires on Maya xD Both in human for and nude. She is exhausted and wants to go to sleep but Scarlet is still in heat. She keeps hugging her and kissing her cheek. **“MayaxScarlett Aftermath”**

7. I'll take Weiss Schnee and Blake Belladonna transforming into a werewolf and werecat respectively, Weiss being terrified of the beast she's becoming, but Blake liking her transformation **"Werewolf Weiss and Blake"**

8. My wolf council request for this month will basically be this (image ref) with Nagatoro transforming and Nagatoro using a non-transformed hand to guide Naoto's to touch her Sternum :3

9. Zhu Yuan naked on all fours preparing for her transformation, but she is comforted by Wise just as her transformation begins (by starts I mean only her spine and tail have formed and she's still human), and Zhu hugs Wise back knowing she isn't alone.

10. Werewolf Asuna SAO. While exploring new power ups in a new VR Games, Asuna finding that powers ups in game have real world effects. Would be a fairly mid-way TF in bedroom. Very bulked up/busty Asuna. Expression is artist choice of pain/arousel mix. Already well into her TF and tail 3/4 length but curling stuck within her stretched pajamas leggings/underwear. Somewhat would be on her side and and one leg up and would show the thicken semi-fur tail forming up and one hand on it either from behind back or in front.

Other arm just bracing herself. **“Werewolf Asuna”**
