

Roland Frasier - AI Powered Expert Apprentice 2023

The EPIC Board is for investors, consultants, experts, high-performance business professionals, and successful entrepreneurs who want to be part of a high-value community where YOUR business growth, profitability, and success are the goals of every member.

IT'S MORE THAN A MASTERMIND, IT'S A PARTNERSHIP

EPIC Board goes beyond your typical high-value mastermind or mentorship program. Instead, it's an elite partnership between all members. You'll experience unprecedented support as your expert advisory board and a room full of successful entrepreneurs focus on YOUR business and needs during our LIVE events. You'll enjoy being part of a high-value community, establishing invaluable relationships, participating in resort destination events, and have access to expert mentorship, member-only content, business resources, templates, and support you need.

WE SIT ON YOUR ADVISORY BOARD

Have Roland Frasier, DeAnna Rogers, Ryan Diess, and other successful partners from Roland's extensive network sit on your advisory board, providing personalized mentorship and support when you need us.

UNRESTRICTED RESOURCE ACCESS

As an EPIC Board member, nothing is held back. You get access to every training series, workshop, intensive, tool, resource, and connection we have to offer at your disposal.

CREDIBILITY AND SUPPORT

EPIC Board gives you the unique ability to leverage the credibility, expertise, and brand recognition of being in partnership with recognized entrepreneurs. In addition to strategic advice, high-level mentorship, and guidance.

The AI Powered Expert is a cutting-edge program that breaks down how to use untapped AI tools and tactics to start or enhance your coaching and consulting business, radically improve your efficiency, and deliver significantly better results for your clients.

Here's what you can expect to learn in THE AI POWERED EXPERT:

- **Discover the step-by-step fundamentals of AI broken down in an easy-to-understand way** and how it works so you can finally “get” this stuff (it's really not hard using the tools and tactics we will show you, and you do not have to be “techie” at all to do it.)
- **Learn the different types of AI and how they can be applied in coaching and consulting** so you know precisely which tools and settings will deliver the best job every time. This is like having a seasoned mentor doing almost all

the work for you while you do some minor tweaking here and there to tailor it to your clients.

- **Best practices for using AI in coaching and consulting**, including how to identify appropriate use cases and implement AI solutions (we will walk you through LIVE examples of how to do this on the fly so you can see exactly how simple and effective it really is)
- **How to use AI tools and techniques to improve efficiency and deliver better results for your clients.** The power of AI coupled with the perfect tech stacks is absolutely mind-blowing, and we will show you exactly which tools to use that will do all the heavy lifting for you, and many are absolutely free or fully paid for by your clients!
- **Case studies and examples of how AI has been successfully applied in coaching and consulting** (we'll give you several copy-and-paste templates so you can fulfill for any client, in any situation.)

You'll Learn Directly From Masters Of The Game...

Our industry experts will share their insights from decades of experience serving their coaching and consulting clients. You'll discover how they've **leveraged AI to deliver 7-figure results** with exact time-tested models and repeatable frameworks.

We'll provide you with the knowledge and skills you need to confidently incorporate AI and the latest tech solutions into your business and start **revolutionizing the way you work**.

Don't miss out on this opportunity to take advantage of the most cutting-edge developments in AI to launch and expand your coaching or consulting business to the next level, save time, serve more clients with better services and, best of all, transform your knowledge, skills, and network into new or greater streams of cash flow (plus we'll show you how harnessing the power of AI will have your clients begging you give you ownership in their businesses...without pitching or being "salesy")...

Here are just a few of the case studies and real examples of how you can successfully apply AI and tech-enabled solutions in your coaching and consulting business:

1. Automated, personalized coaching and development plans: Learn how to use the power of AI to create personalized business, marketing, strategy, growth, and scaling plans for your clients based on their strengths, weaknesses, and overall goals. This allows you to effortlessly improve the efficiency and effectiveness of the coaching process, as AI can analyze large amounts of data and provide tailored recommendations.

2. Deploy virtual coaching assistants: Learn exactly how AI-powered virtual assistants were used to provide coaching and support to clients in real time, helping them to overcome their specific challenges and achieve their personal and work-related goals.

3. How AI automatically created complete marketing, messaging, copywriting, content marketing, content creation, email writing, sales and landing page creation, social media posts, and more. All of this was automatically created and custom tailored to create everything different experts needed for their expert-experience based businesses.

4. Predictive analytics for performance optimization: Discover how an AI-powered platform was used to analyze data from various sources (e.g., sales data, customer feedback) to identify trends and patterns with incredible efficiency that could be used to optimize business performance. This allowed coaches and consultants to make more informed decisions and help their clients achieve better results much faster than ever before.

5. Automated coaching and feedback: See how AI was used to automate the delivery of coaching and feedback to clients, providing them with timely and relevant support to help them improve their performance. This helped to reduce the workload of coaches and consultants, allowing them to focus on more high-value tasks.

6. Virtual reality training and simulations: Get an inside look at how AI was used to create immersive virtual reality training and simulation experiences that allowed coaches and consultants to provide experiential learning opportunities to their clients. This helped to enhance the effectiveness and engagement of the training process.

7. Standard Operating Procedures: Understand how AI was used to create detailed standard operating procedures for various businesses, from clearing services to software development to consulting practices.

After Completing The AI Expert Masterclass, you will:

- **Be Able To Use AI To Analyze Data**
Be able to use AI to analyze data and provide personalized recommendations on growth, scale, marketing, efficiency, pretty much anything you can think of, and anything your clients might ask for, improving the efficiency and effectiveness of the coaching process.
- **Deploy Virtual Coaching Assistants**
Deploy Virtual coaching assistants powered by AI to provide real-time support and guidance to your clients and customers, helping them to overcome challenges and achieve their goals, regardless of your personal experience.

- **Effortlessly Automate The Delivery of Coaching & Feedback**
Effortlessly automate the delivery of coaching and feedback, freeing yourself up to focus on high-value tasks and providing timely support to your clients and customers.
- **Utilize Advanced Predictive Analytics**
Utilize advanced predictive analytics enabled by AI to identify trends and patterns in data, allowing you to easily and accurately optimize business performance for your clients.
- **Create AI-Powered Virtual Reality Trainings**
Create AI-powered virtual reality training and simulations to provide immersive learning experiences for your clients, improving the effectiveness and engagement of training.
- **Gain A Massive Competitive Edge**
Understand how to leverage AI to help your clients and customers gain a massive competitive edge and stay ahead of the curve in their industry.
- **Scale Your Business Faster**
Scale your coaching or consulting businesses significantly faster, eliminate personnel challenges and reach a wider audience without sacrificing the personalized support you want to provide to your clients.
- **Identify & Address Problems**
Algorithmically identify and address potential problems and challenges before they occur, using AI to help prevent costly mistakes and improve outcomes for your clients and customers.
- **Provide Real Time Data & Insights**
Drastically enhance the coaching and consulting process by providing real-time data and insights that allow your clients and customers to make more informed decisions for better results.
- **Help Your Clients Succeed!**
Know how to Incorporate tech and AI-enablement into your coaching or consulting business to improve your efficiency, increase productivity, and free up your time to focus on what you do best: helping your clients succeed.

YOU'RE JUST 30 DAYS AWAY FROM BREAKING FREE

The AI Powered Expert is a comprehensive **30-day fast-track coaching program** for knowledge experts ready to break free from the grind of client work by harnessing the power of AI to exponentially expand your empire.

You'll get access to the complete **AI Powered Expert Masterclass + 30 days of personalized direct video-based coaching from Roland Frasier** to help you quickly launch or rapidly expand your coaching and consulting business...

The AI Powered Expert is different from anything else on the market, because rather than teaching you static information that can become quickly outdated in a world constantly changing from recession, wars, inflation, pandemics and de-globalization,

this is a LIVING BREATHING program, constantly updated using the **power of artificial intelligence**.

The information you learn in this program can never become out of date because you will understand how to continuously update and improve everything you learn using the power of AI.

Expect to be completely blown away by what you can accomplish using AI, how simple it is to get started, how deep you can go just by asking the right questions, and expect that upon completion of this program you will have everything you need to be able to get consulting clients quickly and easily to harness the power of AI for your business and for the clients you advise.

You'll be in a highly leveraged position to operate your entire business using a completely integrated technology that provides everything you need to fulfill your services to your customers, from marketing to billing to reporting and client communications.
