Clink on the [LINK](#) to go to the C treble clef Charts for CADME All Ages Jazz Jam on *Fri Oct 16 2026 at Dr EP Scarlett HS from 7-9pm.*

JAZZ JAM EXPLANATION:

A jazz jam session is an informal gathering where musicians play improvised jazz music together on the spot, usually performing well-known jazz standards.

How a Jazz Jam Works

- **The Head:** The group starts by playing the main melody of the song together, known as the "head".
- **The Solos:** Musicians take turns improvising individual solos over the repeating chord progression of the song.
- **The Head Out:** The band plays the main melody one final time to signal the end of the tune.

How can you prepare for the jazz jam:

Know the **melody**, form, and chord changes.

Practice the melody, form and chord changes with a **play-along** track.

Listen to good recordings of the tunes.
