

Article 06: Proposed Strategic Initiative: The NATO-UN Ukraine Contact Group can Save Ukraine, Save Europe, and Stop the Global Food and Economic Crises, if they ACT NOW to Declare an Enforced Humanitarian Ceasefire and Safe Zone and No-Fly-Zone like those used twice in the Yugoslavia Wars. 06v9a

The Proposed Strategic Initiative:

**The Ukraine Contact Group CAN ACT NOW
to Declare and Impose an Enforced:**

i: Humanitarian Ceasefire

ii; Safe-Zones throughout Ukraine

iii: No-Fly-Zone / No-Missile Zone i.e., “Close the Sky”

like those used twice in the Yugoslavia Wars

Nuclear Deterrence Doctrine: There also is presented below a new **Conventional Weapons only Doctrine of Nuclear Deterrence** which is urgently needed to counter Putin’s often vaguely repeated - **but now explicit** - threat to use of **Tactical Nuclear Weapons (TNWs)**:

****** 2X Quantitative Mutual Assured Retaliation with Incremental Destruction**

****** Focused Conventional War Declaration, or Threat of Declaration**

A **Strategic Initiative** is not a **negotiation** for a Ceasefire or some other **diplomatic proposal**.

It is a **Declaration of Intent**, of **Imposition** of the **Will** of one party over the other party.

In this case, the **NATO-UN Ukraine Contact Group Declares its Intent to Impose an Enforced Ceasefire, Safe-Zone, and No-Fly-Zone** over all of Ukraine.

Such **Strategic Initiative Declarations of Intent**, were used **twice** by **NATO** in the **Yugoslavia Wars** to stop the **ongoing genocide** on the ground. Once was with **UN Security Council approval** and once was **without that approval**, which was **vetoed** by **Russia**. This is discussed in detail in **Article-04** in this **Ukraine Crisis Analysis Google Workspace Project**:

Article-04: How to solve the Ukraine Crisis: Use NATO No-Fly Zones like were used twice in the Yugoslavia Wars

which is [linked here](#):

Note: The **previous update** on June 29, 2022 of this **Article 06: Proposed Strategic Initiative**: was written for the **Ukraine Contact Group (“UCG” aka “Global Coalition”)** *meeting* at the **Europe Summit** in Madrid

MOTIVATING STATEMENT

KEY GOAL for the June 28-30 2022 NATO Summit:

Putin's illegal invasion of Ukraine has now created 3 Major Crises
Ukraine crisis
Europe crisis
Global Food Crisis

Since that **June date**, **Putin** has now created **4 additional Major Crises in Ukraine and the World**:

Ukraine Zaporizhzhia Nuclear Power Plant Crisis: “#ZNPP” Crisis

Ukraine Kahkovka Hydroelectric Power Plant Crisis: “#KHPP” Crisis

Global Economic Crisis: including major damage to the U.S. Economy

However, the **Proposed Strategic Initiative** has not changed:

The **Ukraine Contact Group MUST ACT NOW** to **Declare an**:

- i: Enforced Humanitarian Ceasefire***
- ii; Enforced Safe-Zones throughout Ukraine***
- iii: Enforced No-Fly Zone - “Close the Sky”***

like those used twice in the Yugoslav Wars

******* KEY ASSERTION:**

If the **Proposed Strategic Initiative** is implemented by the **Ukraine Contact Group** so that there is **then in place**:

- i: an Enforced Humanitarian Ceasefire***
- ii; an Enforced Safe-Zone throughout Ukraine***
- iii: an Enforced No-Fly Zone / No-Missile-Zone (“Close the Sky”)***

Then **all 6 of the Putin-created Crises:**

*the **Ukraine crisis***

*the **Europe crisis***

*the **Global Food Crisis***

*the **Ukraine Zaporizhzhia Nuclear Power Plant Crisis: “#ZNPP” Crisis***

*the **Ukraine Kahkovka Hydroelectric Power Plant Crisis: “#KHPP” Crisis***

*the **Global Economic Crisis: including major damage to the U.S. Economy***

can effectively be ended very quickly

KEY POTENTIAL SOLUTION: Although members of **NATO** have previously been **unwilling to implement a No-Fly Zone in Ukraine** for fear of **provoking Putin** into further **escalation**, including possibly, the use of **Tactical Nuclear Weapons**,

*I strongly believe the **Ukraine Contact Group** members can be convinced to **act immediately** if they can **review all information** presented in the (now 6) **draft Articles** that are now **published online** in this **Google Workspace project***

Nuclear Deterrence Doctrine: There also was presented in the **4 Google Workspace Articles (01-04)** to 4 Articles that were included as attached Doc files in the **March 24 email to General Ben Hodges** a new **proposed Doctrine of Nuclear Deterrence** which is urgently needed to counter Putin's often vaguely repeated - **but now explicit** - threat to use of **Tactical Nuclear Weapons (TNWs)**:

****** 2X Quantitative Mutual Assured Retaliation with Incremental Destruction**

****** Focused Conventional War Declaration, or Threat of Declaration**

A preliminary description of this new **Doctrine** is presented below, and this **Nuclear Deterrence discussion** is probably the main and most important reason for creating this **online Google Workspace Project**, so that **government** and **military experts** can conduct **secure, private Discussions** about the details of exactly how to implement this proposed new Doctrine, or whether there are better alternatives, especially as this Crisis evolves further.

NEWS UPDATE: June 30, 2022

The **Title** to **Article 02** that was presented in **March 24** email to **Ben Hodges** is copied here:

Article 02: “Putin's End Game - is to create a Major Attack on NATO and Europe by Forced Migration of more than 20 Million Terrorized Ukrainian Refugees”

which is [linked here](#):

That **Article 02 Title** presented essentially the **same idea** that very recently was **clearly stated** by the **Polish Prime Minister, Mateusz Morawiecki** at the **June 14** meeting of the **Ukraine Contact Group** for the **NATO-UN Global Coalition in Support of Ukraine**:

“Putin wants to create famine in Africa and in Middle East with the hope that the yet another migration crisis will destabilize the European Union”

The full paragraph in which that single sentence quote was stated is shown in the following **YouTube Video** and **Transcript of Polish Prime Minister, Mateusz Morawiecki**, statement after the **Ukraine Contact Group** meeting.

NOTE: when you are on the YouTube web page, click on “...more” to see the Transcript)

https://youtube.com/video/Oz_8s51xKgg/edit

“ One last thing, look at what is happening with the price of raw materials, natural resources, and wheat crops grain.

This is yet another type of weapon of the Kremlin against the free world.

Putin wants to create famine in Africa in Middle East with the hope that the yet another migration crisis will destabilize the European Union.

*This is why we have to take a **very decisive stance here and now** with regard to the **war in Ukraine**. "*

This very clear statement by the **Polish PM** after the June 14, 2022 **Contact Group meeting** clearly recognizes that **Putin's goal is to create Global Food Crisis that, in turn, will create yet another migrant crisis in Europe**

This clear **recognition** that this **disruption of Europe** by "**yet another migration crisis**" that is **similar to Brexit** is, in fact, a **deliberate part of Putin's End Game goal** is an important next step for the **Ukraine Contact Group of the Global Coalition**.

I believe this recognition makes it highly likely that they will agree that the **Quantitative Analysis and Interpretations of Putin's Goals** that were presented in the **March 24 2022 email to Ben Hodges** was correct

and that the **Proposed Strategic Initiative** is also valid and will be effective, although there is **some moderate increased risk**.

*that they will **seriously consider immediate implementation of that Proposed Strategic Initiative at the next NATO Summit on June 28-30***

Further delay will only play further into Putin's hands, and allow even more of the **massive destruction of Ukrainian lives, property, infrastructure and culture**.

In short, those very recent **results and analysis** create a **unique opportunity** for the next **NATO Summit** in Madrid on **June 28-30** to have there be a vote on this **Proposed Strategic Initiative** for the **Coalition** to then **Declare**:

i: an Enforced Humanitarian Coalition

ii: Safe Zone

iii: No-Fly Zone

like those that were **used twice** in the **Yugoslav Wars**

KEY GOAL for the June 28-30, 2022 NATO Summit:

*The **Goal now** is to get that **critical information** to the members of the **Ukraine Contact Group** of the **Global Coalition**.*

Ben Hodges, Kurt Volker, Lauren Speranza and others at **CEPA.org** may be the **best persons** to rapidly accomplish that **Critical Goal**. If they are able, themselves, to **access** and **review** it quickly in this **online Knowledge Base**, and then **transmit** that **Proposed Strategic Initiative** to the **Contact Group** at this upcoming **Ukraine Contact Group** meeting.

Members of the **Contact Group** then come to this **Google Workspace** for the **Ukraine Crisis Analysis project**, and **add** their own **comments** and **suggestions**, as **active collaborators / co-authors** on this **Proposed Strategic Initiative project**,

Any such **improvements** could very well turn out to be **critically important** for this to be **convincing** enough to **Ben Hodges** and / or **Kurt Volker** for them to agree to present this to the **Ukraine Contact Group**.

Kurt Volker, in particular, should be able to immediately and fully see the **potential effectiveness** of this **Proposed Strategic Initiative** because it's **No-Fly-Zone-based approach** is very similar to the approach that he and **26 other analysts** presented in a **co-signed letter**

Volker et al ***Open Letter Calling for Limited No-Fly Zone***

I have been trying to **contact Kurt Volker** through his **CEPA email address** and **phone number**, but as with the case for the **Ben Hodges email** and **phone number**, neither has been set up according to **CEPA administrative assistant Reese Phillips**.

Please note that an important part of this **Ukraine Crisis Analysis project** is the **Google Meet** feature that is already built into the **Google Workspace** software system.

Google “Meet” was previously called **“Hangouts”**, so many of you may already be very familiar with how to use it, and already how **powerful** it is for **online Discussions** and **Collaborations**, (**Meet / Hangouts** is similar to **Zoom**, but ***integrated securely*** into the **Google Workspace cloud system** that also includes **Gmail** and **Google Docs**).

It will be very helpful and **most effective** if the **Proposed Strategic Initiative** can be presented to the **Contact Group** and at least a **preliminary discussion** of it can begin while they are **still meeting** at the **NATO Summit** in Madrid from **June 28-30**.

Even though it is **already after June 28**, *if the email with the link to **this Article 06 page** containing the **Proposed Strategic Initiative**, is forwarded today* - or even later during or even **after** the **NATO meeting** to **Ben Hodges , Kurt Volker, Lauren Speranza**, there is **still adequate time** for them to **rapidly review** and then **decide** to **communicate** the **Proposed Strategic Initiative** to the members of the **Ukraine Contact Group** for the **Global Coalition** while the **Contact Group** is **meeting** and **working together** during the **NATO Summit**.

If this **Article 06 statement** of the **Proposed Strategic Initiative** and the **basic features** of the **Google Meet review process** can reach the **Contact Group** so that it can be **introduced** to them and any **preliminary questions** or **training** needed for the effective use of **Google Meet** or the many other **Commenting** features is provided while they are still there, this will make it much easier for them to:

i: **carefully read and review** the **Proposed Strategic Initiative**, or the other material provided in the online in this Knowledge System

ii: **actively discuss it online** using the secure **Google Meet feature** that is built into **Google Workspace**, and then be able to agree to:

iii: take a **decisive vote** to **implement** that **Proposed Strategic Initiative**.

either while they are all at their **planned meeting** at the **NATO Summit** from **June 28-30**, or at some time **after** they leave the meeting.

Recall the opening:

***** **KEY ASSERTION:**

*If the **Proposed Strategic Initiative** is implemented by the **Ukraine Contact Group** at the next **NATO Summit** so that there is **then in place**:*

i: an **Enforced Humanitarian Ceasefire**

ii; an **Enforced Safe-Zone** throughout **Ukraine**

iii: an **Enforced No-Fly Zone**

Then **all 6 of the Putin-created Crises:**

*the **Ukraine crisis***

*the **Europe crisis***

*the **Global Food Crisis***

*the **Ukraine Zaporizhzhia Nuclear Power Plant Crisis: “#ZNPP” Crisis***

*the **Ukraine Kahkovka Hydroelectric Power Plant Crisis: “#KHPP” Crisis***

*the **Global Economic Crisis: including major damage to the U.S. Economy***

*will **effectively be ended very rapidly***

***** *Re: **Nuclear Deterrence Doctrine:** There also was presented in the **March 24 email** a new **proposed Doctrine of Nuclear Deterrence** which is urgently needed to counter Putin's vague, but repeated, threat to use of **Tactical Nuclear Weapons (TNWs):***

**** ***2X Quantitative Mutual Assured Retaliation with Incremental Destruction***

****** Focused Conventional War Declaration, or Threat of Declaration**

Brief Example: if Putin decides to use his "**escalate / de-escalate**" doctrine and fires a **Single Hypersonic Cruise Missile** carrying a **Single TNW** on a major city in **Ukraine, or Europe** (General Wesley Clark thinks it might be **Poland**), then the following **Assured Retaliation** is in effect.

Ukraine or Europe (NATO) has the Assured Right to 2X Quantitative Mutual Assured Retaliation up to Full Destruction with Conventional Weapons of 2 major Russian cities, by any combination of Conventional weapons, which may occur in a sequence of Retaliation / Negotiation steps

in particular: Moscow and St. Petersburg will be targeted for Mutual Assured Retaliation up to Full Destruction with Conventional Weapons

**without allowing further escalation of the conflict allowed by Putin
or there will be another 2X Retaliation by Ukraine (or Europe)
eg Kaliningrad and Vladivostok**

I believe that this new proposed Doctrine of Nuclear Deterrence , if carefully and properly developed, can address the major concerns that are expressed in the recent CEPA article by Ben Hodges

*5/5/22 Ben Hodges - NATO Must Re-Learn Deterrence ; and quickly ; CEPA
The Western reaction to the current crisis in Ukraine shows that we will have to revive the concept of deterrence, and quickly.*

Excerpt from Article 01 - Two Parallel Tracks of Action: 1) Pursue a Win-Win approach that gives Putin a Positive Way Out ; 2) Declaration by NATO of a Focused Conventional Weapons War based on clearly stated Doctrine of Quantitative Multi-Level Mutual Assured Retaliation 01v4

Article 01 - Two Parallel Tracks of Action:

- 1) Pursue a Win-Win approach that gives Putin a Positive Way Out ;**
- 2) Declaration by NATO of a
Focused Conventional Weapons War
based on clearly stated
Doctrine of Quantitative Multi-Level Mutual Assured Retaliation**

Regarding **Track 1**: Pursue a **Win-Win approach** that gives Putin a **Positive Way Out** ;

Ben Hodges, in his February 17, 2022 **CEPA** article

Defending US Allies and Interests Against Russian Aggression in Eastern Europe

proposed the following:

"NATO members could also sign an agreement or make a public joint statement where member states guarantee Russia's internationally recognized borders. We have already done this, in effect, for decades, and on the surface, it seems almost ludicrous for Lithuania, Latvia, Estonia, or other Allies to have to guarantee that they would never invade Russia. But maybe because it does seem so ludicrous, making a public event out of it might help counter the false narrative of Russia being threatened by NATO."

*Especially with Sweden and Finland now definitely joining NATO, all of the NATO members could to also sign a **formal signed agreement** - perhaps even a **Non-Aggression Treaty** between NATO members and Russia*

**** This would give Putin not just an **off-ramp**, but an **actual tangible win**.*

*Then, it would be clear that Ukraine would also have to sign this agreement if and when it does join NATO, which should remove another potential objection by Putin, and give an additional win to justify his agreeing to an **immediate Ceasefire** and **real, productive Negotiations**.*

MOST URGENT AND CRITICAL: This ACTION TODAY can be implemented immediately the **Declaration of a Humanitarian Action** by the new

Global Coalition in Support of Ukraine ("**#NATO_UN_Coalition**")

which is described in some detail below.

If for some reason, the **NATO-UN Global Coalition** is unwilling or unable to do this, a less formal "**Coalition of the Willing**" can be used.

*** ALSO MOST IMPORTANT** - There are still about **100,000 Mariupol Civilians** that urgently need to be **evacuated from - or protected within - Mariupol**

Putin has recently stated that this is not a war against Ukraine, but rather is a ***war against all of NATO.***

The new **NATO-UN Global Coalition** can ***Seize the Strategic Initiative*** and impose their will on Putin-Russia, with the **Declaration** of an **Enforced Humanitarian Safe Zone** and **No-Fly-Zone** throughout **Ukraine** discussion of recent CNN interviews.

The “**NATO-UN-Coalition**” (or just the “**Coalition**”) referred to here is the specific group of **40+ countries** that **U.S. Secretary of Defense Lloyd Austin** and others organized to meet at **Ramstein Air Force Base** in Germany on 2022-04-26 *in support of Ukraine.*

photo: _01 #NATO_UN_Coalition in support of Ukraine.png

A clear description of this new formal, permanent ***Global Coalition in Support of Ukraine*** was provided by **Stefanie Babst** in her recent article:

April 2022 - Stefanie Babst - A Strategy for Containing Putin's Russia
<https://ip-quarterly.com/en/strategy-containing-putins-russia>

Global Coalition in Support of Ukraine

*The creation of a **US-led global coalition** in support of Ukraine has been a **truly positive sign** in these otherwise messy recent weeks. The meeting that took place at **Ramstein Air Base** in Germany on **April 26** was aimed at assessing the **current Russian offensive in eastern Ukraine** and discussing how to **ensure the continuous flow of security assistance** for Ukraine and to meet the country's longer-term security and military needs.*

*A total of **40 countries** attended the meeting, including Israel, Australia, Kenya, Tunisia, South Korea, and Japan. **All the European Union and NATO members participated.** According to US Secretary of Defense Lloyd **Austin**, the new **global contact group** will continue to meet on a **monthly** basis.*

The creation of a **permanent international structure** could not be timelier. While individual NATO allies continue to send lethal and non-lethal equipment of all kinds across Ukraine's borders, and since NATO allies could not agree to serve as the main coordinating body for the flow of military assistance, it was **essential** that **Washington** took the lead.

*Already in March, the **US European Command** created a new unit called the **European Control Center Ukraine (ECCU)**, to coordinate and synchronize equipment deliveries from Washington and its partners. Fifteen other partner nations—including NATO and non-NATO members—have provided the center with staff. Lifting the issue from a tactical to a senior political level now is a crucially important step to help the Ukrainians establish a much-needed overview of military supplies received and improve their military-operational planning and training.*

In addition to the formation of the **Global Coalition**, she also mentioned *the urgent need to take steps to ensure that:*

"Refugees ..[prisoners]. that have been deported to Russian "filtration camps," must be allowed to return to their homes. "

Outline of Key Topic to Discuss

What is **Putin's End Game??**

His **Ultimate End-Game**: seems clear to be to invade Europe and to restore a "Soviet Union" like federation

Putin famously said that in his opinion *the greatest tragedy of the 20th Century was the breakup of the Soviet Union*

His **Current End Game**: to drive **20 - 25 Million** terrorized Refugees into Europe
ie, the equivalent of **10X Brexits**, compared to the 2 Million terrorized Syrian Refugees

In the past few days, Putin / Russia have broken several agreements about treatment of the Mariupol Prisoners

* From Reuters, BBC etc reporting on Friday, May 20:

Over 1700 #MariupolHeroes are in nearby Filtration Camps
including now the LEADERS

There is a plan to try them as Terrorists

The #NATO_UN_Coalition must ACT NOW - TODAY - before they are tortured or sent to Russian Camps

* Here is the proposed solution:

The US-led new NATO-UN-Coalition can Declare an Enforced:

1. Humanitarian Ceasefire
2. Humanitarian Safe Zone
3. No-Fly-Zone in #Mariupol like those used twice in the Yugoslavia Wars

What is **Putin's Game??**

His **Itimate End-Game**: seems clear to be to invade Europe and to restore Soviet Union

His **Long Game**: to drive **20 - 25 Million** terrorized Refugees into Europe

ie, the equivalent of **10X Brexits**, compared to the 2 Million terrorized Syrian Refugees

His **Immediate Game**: to "Crush Ukraine" and force them to surrender

Why is Putin / Russia set out to completely destroy:

Mariupol: to cause maximum terror in Ukrainians throughout Ukraine, to create a maximum '**SECOND WAVE**'

There were more than *25 broken ceasefire agreements* over the last 2 months

deliberate escalations of bombings of the Azovstal steel plant after supposed ceasefire agreement

Kharkiv
Vonnukha: which they started shelling
Bucha
Irpina
Chernihiv

in each case it is to

- create as much terror as possible
- create as much chaos as possible
- completely control the situation
- create a situation where terrorized Ukrainians
are forced to flee westward into Europe
there are no homes or cities for them to return to, so that the **damage to Europe and NATO and the USA is both extreme and permanent**

Igor Novikov: former assistant to Zelenskyy,

“Putin has weaponized terror”

Putin’s Russia is a **terrorist regime**

that urgently needs to be **changed from within** but **not destroyed from without** by NATO and the USA

Stalin 2.0: Putin is Stalin 2.0, given the historic relation to the massive destruction of Ukraine and massive death of Ukrainian people during the 1930s.

De-Stalinization: not *De-Putinization*, which Putin would certainly see as an “**existential threat**” to both himself and to Russia, and could actually lead to his decision to use Tactical Nuclear Weapons in Ukraine or in Europe

How to Save Mariupol and Ukraine: A NATO-UN-Coalition can Seize the Strategic Initiative and set up an Enforced Humanitarian Safe Zone and No-Fly-Zone throughout Ukraine.

Photo: NATO-UN-Coalition

"Take the Strategic Initiative" and Enforce:

- 1) a Full Ceasefire and
- 2) No Fly Zone in Ukraine to #CloseTheSky
- 3) a Humanitarian Safe Zone to #SaveAzovstal

Tactical Initiative 1: Save the **Azovstal Plant**, A NATO-UN-Coalition must Seize the Initiative and Enforce:

- 1) a Full Ceasefire in Ukraine
- 2) a No Fly Zone over Ukraine to #CloseTheSky to all Russian Missiles and Bombs
- 3) a Humanitarian Safe Zone throughout Mariupol in order to #SaveAzovstal

*This is **not an evacuation**, it is the creation of a **permanent Humanitarian Safe Zone** within Mariupol mediated and **enforced** by NATO-UN Peacekeeping forces:*

NATO fighter jets: F16s or newer
NATO helicopters: Apache gunships
NATO transport helicopters: Chinooks carrying immediate Food and Medical Supplies

Operational Initiative / Goal: this same **Tactical action** also has the **operational goal** of immediately introducing the necessary and sufficient advanced NATO weapons, that are urgently needed to defeat Russia

without the declaration of war by NATO

This also will serve to **immediately bypass** any delays or blocks in the arrival of Coalition weapons that is now being caused by the continuing to airstrikes on Rail lines, etc.

Tactical Initiative 2: Save Mariupol: Once the **Azovstal Plant** has been at least partly rescued, the same NATO-UN-Coalition can then expand its operation to saving the rest of Mariupol

THERE ARE STILL ~100,000 CIVILIANS REMAINING THAT ARE NOT IN THE AZOVSTAL PLANT, AND URGENTLY NEED TO BE EVACUATED

bringing major supplies into port by ship

Tactical Initiative 3: Save Kharkiv, Kherson, etc: Once **Mariupol** rescue is under way, the same NATO-UN-Coalition can then expand the focus of its operation to saving the other major besieged cities: **Kharkiv, Kherson, etc**

Strategic Initiative: continuation of the above Tactical and Operational Initiatives in order to achieve and maintain;

- 1) a Full Ceasefire throughout **Ukraine**
- 2) a No Fly Zone over Ukraine - #CloseTheSky - to all Russian Missiles and Bombs, Shelling, etc
- 3) a Humanitarian Safe Zone throughout Ukraine in order to **#SaveUkraine**
