

Title of the Event: DEPARTMENTAL ORIENTATION

International/National/College Level: College Level

Date: 17 August, 2023

Organized By: The Department of Mathematics, Maitreyi College

Name of the Convenor: Dr. Geetan Manchanda

Name of the Coordinator: Dr. Neelima Ohri

Number of Attendees : 37

The Mathematics Department of Maitreyi College organized the Departmental Orientation Program for the batch of 2023-26 on 17 August 2023 in Room Number 10. The attendees included freshers, students from second & third year and faculty members. The event began with Dr. Geetan Manchanda, Teacher-in-charge, Department of Mathematics, welcoming all the freshers. She introduced all the faculty members of the Department of Mathematics to the freshers. She also briefed the freshers about the National Education Policy and UGCF2022. The event then proceeded with an introduction of all the students of the fresh batch.

The Mathematics Department of Maitreyi College has always strived hard for the betterment of its students and members. Its endeavor has been to contribute to the students' education not only by enabling students to get a degree, but also by developing in them the ability to think creatively and articulate their thoughts with confidence and conviction. This was shown to the students through a presentation including details about all the events organized by the department throughout the year. Ms. Amrita from 3rd year and Ms. Shweta from 2nd year explained to the students about all the activities and events which the department organizes every year. Dr. Neelima Ohri provided an overview to the students regarding the curriculum and the structure of the course. She elucidated that the first semester would encompass the study of seven subjects, aggregating to a total of 22 credits. These subjects included 3 DSC (Discipline-Specific Core), 1 AEC (Ability Enhancement Course), 1 GE (Generic Elective), 1 SEC (Skill Enhancement Course), and 1 VAC (Value Added Course). The orientation program was quite interactive. The newcomers posed numerous inquiries, particularly about SEC, VAC and GE components. The faculty members adeptly addressed these queries, providing explanations. The department's offerings of SEC and VAC were shared with the students, underlining their significance and their alignment with the students' core discipline. This would enable the students to make well-informed decisions when selecting these courses.

The seniors also played a "Bucket list" game with freshers to break the ice. As the orientation program drew to a close, all attendees were treated to refreshments as a warm gesture to mark their entry into the department. The event was thoroughly enjoyed by all attendees. Extending best wishes to the 2023-2026 batch.

Significance of the Event:

Newly enrolled students were provided with a chance to acquaint themselves with their department, as well as to meet and interact with their teachers and senior peers. During this interaction, they gained insights not only into their curriculum, timetable and academic

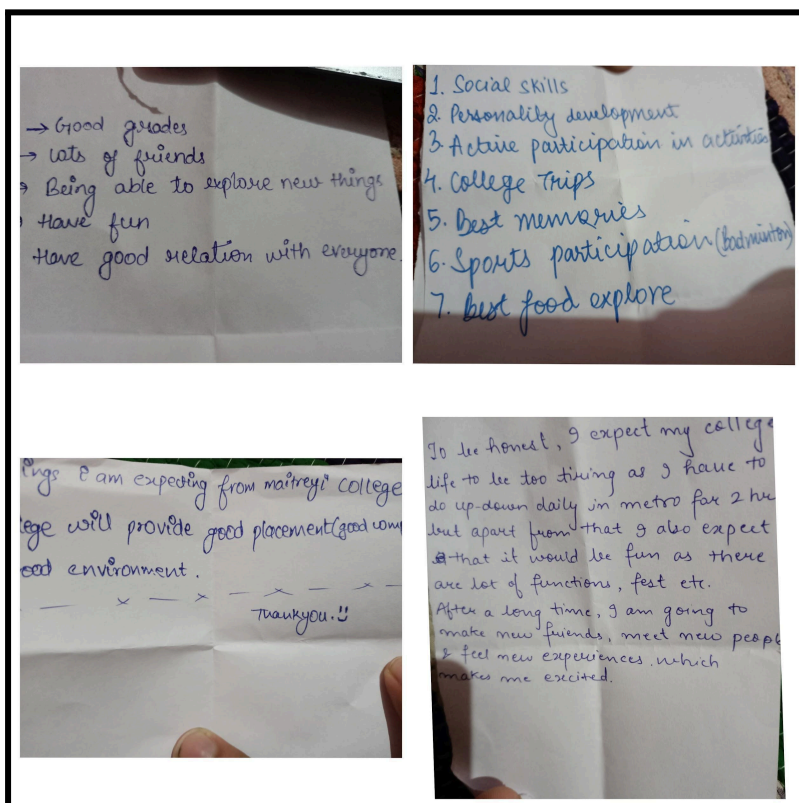

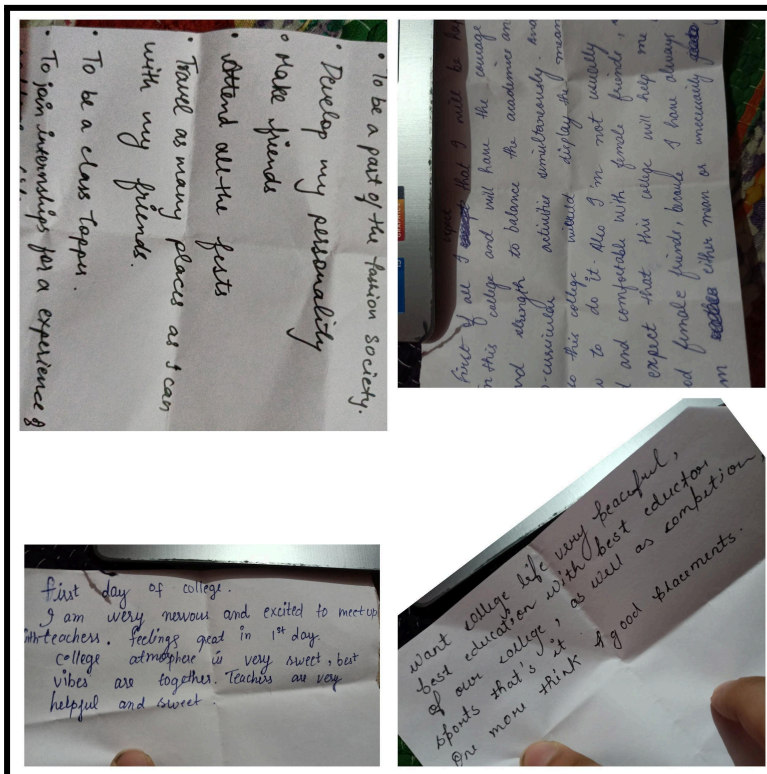

schedules, but also into various departmental events, activities, festivals and educational trips.

Bucket List Activity :

Feedback analysis :

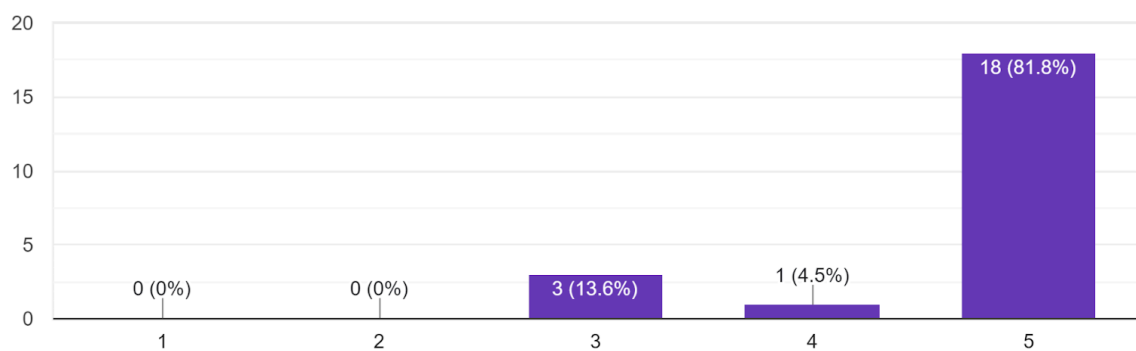

How would you rate the orientation program of department of Mathematics on a scale of 1 to 5?

22 responses

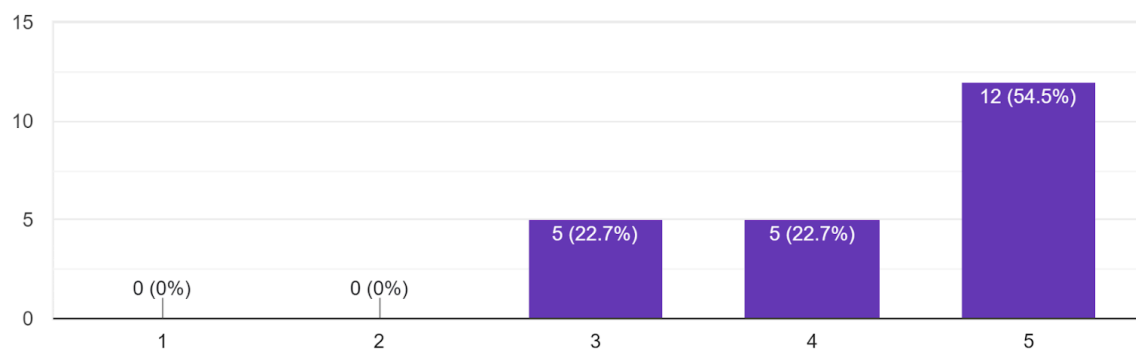

How would you rate the usefulness of this departmental orientation program?

22 responses

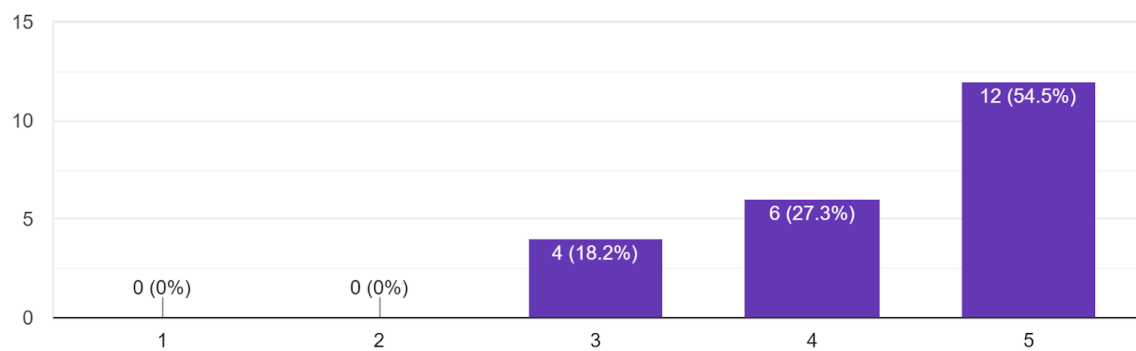

Were you informed well about GE/SEC/VAC courses?

22 responses

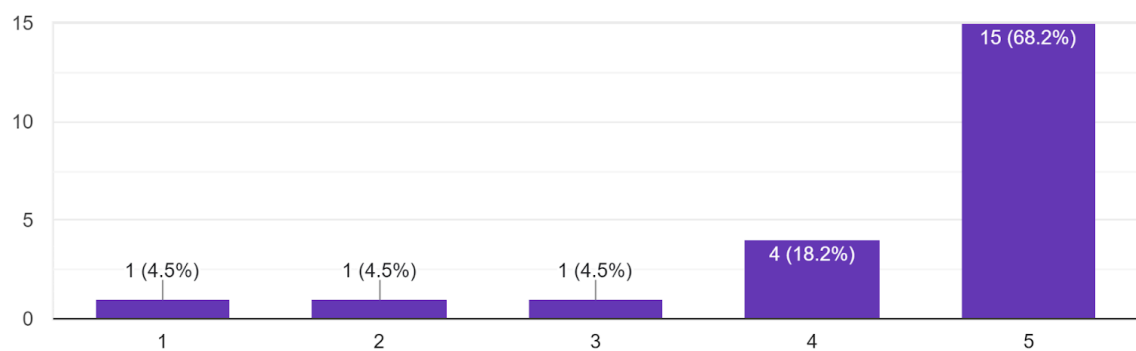

After the session, are you confident to make a well informed choice about GE/SEC/VAC

22 responses

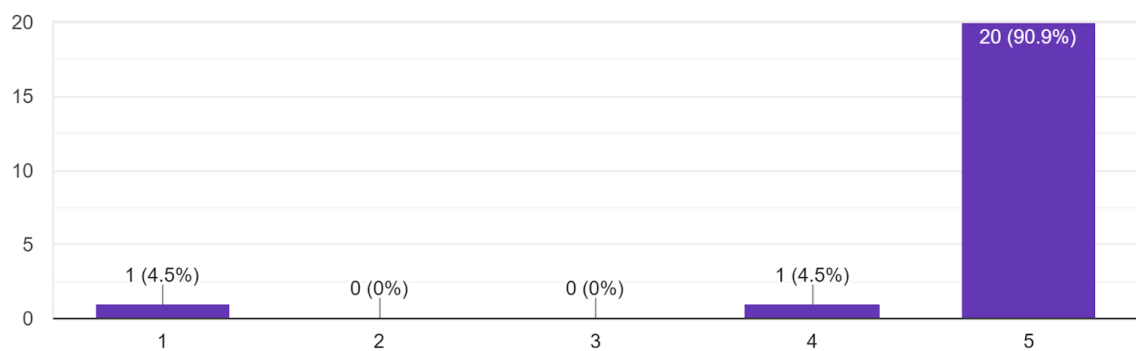

Were your queries answered during interaction with teachers ?

22 responses

Was the session interactive ?

22 responses
