Education

- <university>, <city>, <state>, <country> <start date - end date>
<degree> <GPA if pursuing already>
- <university><city>, <state>, <country> <start date - end date>
<degree> <GPA if pursuing already/completed>

Technical Skills

- **Languages** – <programming languages in order of preference/according to the job post>
- **Frameworks/Tools** – <order of advanced to moderate, try and not include things you are not confident/comfortable with>

Work Experience (prefer to include top 3 work experience including internships if you haven't been in a full-time role before, avoid TA/RA)

- <company> <city><state><country> <start date - end date>
<position>, <team>
- <point1 - include the most impactful statement>
 - <point 2 - include quantitative achievements>
 - <point 3 - display collaboration and achievements (general if any)>
 - <point 4 - showcase soft skills>
- <company> <city><state><country> <start date - end date>
<position>, <team>
- <point1 - include the most impactful statement>
 - <point 2 - include quantitative achievements>
 - <point 3 - display collaboration and achievements (general if any)>
 - <point 4 - showcase soft skills>
- <company> <city><state><country> <start date - end date>
<position>, <team>
- <point1 - include the most impactful statement>
 - <point 2 - include quantitative achievements>
 - <point 3 - display collaboration and achievements (general if any)>
 - <point 4 - showcase soft skills>

Publication (if any)

- <title>
<conference + talk about the paper - quantitative, in no more than 25-40 words>

Technical Projects (prefer to include top 3 projects IF you have enough space)

- <Project Title> | <github link> | <video recording link explaining the project (a minute)> <start date - end date>
<20 word summary>
- <point 1 - skills developed and achievements>
 - <point 2 - achievements in terms of hackathons/presentations with respect to the project>
- <Project Title> | <github link> | <video recording link explaining the project (a minute)> <start date - end date>
<20 word summary>
- <point 1 - skills developed and achievements>
 - <point 2 - achievements in terms of hackathons/presentations with respect to the project>
- <Project Title> | <github link> | <video recording link explaining the project (a minute)> <start date - end date>
<20 word summary>
- <point 1 - skills developed and achievements>
 - <point 2 - achievements in terms of hackathons/presentations with respect to the project>
