

2023 NMBTF Annual Conference: Building a Reliable Lactation Ecosystem
March 1-3, 2023

Objectives:

- Participants will develop an understanding of new and updated policies and guidelines for breastfeeding/chestfeeding from AAP, FDA, USDA, and WIC Federal and Tribal
- Participants will gain the skills to provide education and care to a broader range of communities through developing community building and collaboration skills, including address gaps in care in rural settings and in underserved populations
- Participants will gain the skills to navigate and mitigate misinformation in their own education as well as in the education of their patients and clients
- Participants will gain a better understanding on how to provide support and education in crisis and shortages
