? Q&A

? Questions and Answers

Do you have any questions for the group? Something you would like to get help with, hear how other schools are handling, or such? Add your questions (and answers) below for the meeting:

Question	Response
Is there a quick way to update multiple hyperlinks in a GDoc with a different color instead of doing it individually?	No, hyperlinks are not included in the global format settings like headings are. As an option you could have Gemini write some Apps Script code to do this. Here is some code I generated that worked great for this purpose - Resource link THANK YOU! Our district just got new branding colors so updating so many district document/slides
Is there a quick way to update the font in a GDoc when it has multiple tabs or do you have to update each tab?	Not that I am aware of, because Docs treats each tab as a separate entity. Again though perhaps Apps Script could work around this.
Is there a way to convert a pdf to another language with the pictures/background intact?	Sure thing! You can do this on the Google Translate website - https://translate.google.com/ - Use the "Documents" button at the top to upload your PDF. It can translate all the text while preserving the pictures, background, formatting, and such. - I get an error that it will not upload the pdf. I used it in the past but now it isn't working.
Are any schools out there doing the Gemini paid add on for workspace? Who do you have licenses for?	
Is it really beneficial to upgrade to Google Plus? Would like to hear reasons why to bring forward to my Admin.	http://bit.ly/curts-edplus Google site with comparisons Compare Google Workspace editions - Resource link What Do You Get with Workspace Plus - by Chris Betcher - Website link - Google Docs link
