

Today I will be applying: how to amplify the desired state and how to control attention

Title: **The secret to running a thriving daycare.**

Dear **(daycare name or owner)**,

Being a daycare owner is **exhausting, tiring, and draining.**

We understand,

Is hard to take care of the children, and focus on the other aspects of the daycare like cleaning.

But what I am about to tell you here **will change everything for you going forward.**

If you want to create a daycare that's thriving with a bunch of thriving kids, thriving owners and providers, and happy parents **without having to worry about an unclean environment**, kids getting sick constantly, and angry parents who complain about their kid catching a flu which you have no control of.

UNTIL NOW.

Imagine this, you have woken up from your little cozy bed at 4AM in the morning, got ready, took care of your children, fed them, clothed them. And now you have gotten ready for your daycare, and when you get to the daycare by 7AM in the morning you realize you are nothing but in a state of peace of mind. Everything is good, **the daycare is nice and clean**, kids are happy, no missing child, no angry parents complaining. You are living the dream.

How would you feel if that was you today.

You will feel exactly how they felt.

A PEACE OF MIND.

But how do you get to achieving that peace of mind?

Well, **we already have identified the problem.** Which is the cleanliness of the environment.

How can you clean, and take care of the children at the same time?

You don't.

The best option for you is **to hire a good team which are willing to do the work for you exactly how you want and need it.**

That's why we are here to offer you a life changing service provided by our team of certified experts.
