In groups of 2-4, complete the following challenge!

1. **Register** at Kids Boost Immunity as a student
    a. Go to wwww.kidsboostimmunity.com
    b. Click on **SIGN UP** (top right corner)
    c. Complete the form as a **student** using the classroom code _____
2. Click on Lessons and select the **Environment and Climate Change** learning module
3. Complete the lessons until you have earned **3 vaccines**
4. Each member of your team should now **log out** as a student

Once teachers have been approved by KBI's tech team (may take up to 24 hours if training@kidsboostimmunity.com has not been informed of the training date/time/school district/province)

5. Each member should **sign up as a teacher** and **create a class**
6. Post the **classroom code and link to Kids Boost Immunity** on your classroom site (e.g. Google Classroom)
7. As a team, pick **one lesson** topic you would like to use in your classroom in the next month or two
    a. Lesson name: _____
8. Find one matching **teacher resource** that would support this lesson on the site
    a. Resource name: _____

To show you have completed the challenge, you will need to show:

- 3 vaccines earned as a student by your team
- The classroom site posting on all members' pages
- The lesson and resource names printed on this worksheet
