mentee (undergraduate stoor Dave). This will allow us In addition, it will allow us to	cument is to assist in the building of a relationship be udent, graduate student, postdoc) and me, the mento is to understand each other, our needs, and how best to stay current with your development as a researche ne benchmarks of your training process (e.g., commit	or (Dr. Weisrock, to work together er, and it will help
Expectations		
What are your expectation through your time here?	ons as a member of the lab and what would you l	ike to achieve
What expectations do yo	ou have of me as your graduate mentor?	
My expectations of you a	are:	
Goals		
	accomplish over the next academic year?	

## Communication

What are your preferences for how we interact? What style works best for you? For example, how frequent should we meet, and how structured should meetings be?
What is the best way for you to deal with difficult issues? How do we get through tough times?
My preferred way to communicate with you is:
Career Goals  At this point, what do you think you would like to target as a career? When you graduate what is the next step you would like to take to achieve this career?
At this time, what steps can we take to help you prepare for these goals?

**Weisrock Lab Mentoring Agreement** 

## **Maintenance of confidentiality**

What is your expectation of how the	hings that we discuss can be shared	with others?
Evaluation of previous mer	ntoring efforts	
What worked?		
What things could be improved?
