

JUBILEE ALLOTMENT GARDENS

AGM

Monday 20th February 2023 at 7.30 pm

Location - Zoom

Site Managers' Report

A big welcome to all new plot holders that joined since the last AGM

Role of Site Managers

At present there are two of us whose role is to help with plot and site queries and to promote the standards that each plot holder agrees and signs up to when first joining JAG.

Common problems found are;

1. Not covering plots on areas not being worked even, albeit, for a short time.
2. The short east-west path north of each plot not being kept defined or maintained.
3. Fruit trees taller than 1.8 metres.

Five Year Plan

(This can be found on the website)

Community Payback Team

We are extremely fortunate to have the support of this team, when they are available, to enable us to keep the grounds in a good condition.

Water Supply

The site water supply will be turned on during the end of March.

Wishing everyone a great growing 2023

Chris and Sam
