

PCR

East Kandeia joins the group of countries in forcing their citizens to undergo the PCR test.

Since there was an epidemic of the red plague, a virus that caused small sudden cardiac arrests.

With East Kandeia there are already 4 countries that join this ban on human rights.

Since the situation is currently a bit hot in Kandeia, yesterday upon reaching the figure of 1,300 deaths a day, President Heung-Min Lee sent a clear and concise message to the country and emphasized what he said adding: " It is not optional" .

Those were the words of the East Kandeia president
