

BECOME THAT HIGH PAID FREELANCER EARNING THOUSANDS OF DOLLARS WITH ZERO CAPITAL

EVEN AS A BEGINNER WITH NO SKILL OR KNOWLEDGE OF FREELANCING

When you think about it, it really isn't a surprise that more and more young people are finding it easier to make money in today's world. In the history of humanity, there has never been an easier and better time to make money than today.

In 2023, you don't have the excuse of not making money, because money-making opportunities are everywhere. It's left for you to pick one and stick to it.

However, make sure that what you pick has a high pay potential. You don't want to be doing something for 3 years and not be making over 1million naira monthly.

With so many ways to make money all you have to do is find one with a low barrier of entry and failure rate, and follow through.

One of such opportunities is what I wish to share with you today...

In a country where millions of people are struggling to survive...there is this group of individuals constantly earning huge amounts of USD merely working remotely from the comfort of their homes or wherever they are – in a hostel, a restaurant, or even in the restroom. So long they are with their phone (or laptop), they are bound to closing deals at high gigs and therefore constantly earning thousands of dollars.

Rejection is normal, trust the process 🌟 I am a man helped by God 🙏

Merry Christmas 16:42

Today

Good day Sir Walter,

Would be really ungrateful of me to not share my Wins for 2022.

And it was all thanks to your help & coaching

I worked with just 2 clients last year

One which paid me about \$340

And another which I have been working with on retainer, sums about \$9K+

To think that I entered 2022 really broke

I'm really grateful to God for your help, thanks for everything, hope to do more in 2023

13:56

Pls crop out my name if you'll post this 🙏

13:57

Lol 17:45

Pls crop out my name if you'll post this 🙏

You don't want them to bill u? 🤔 17:46

Good day Sir Walter,

Would be really ungrateful of me to not share my Wins for 2.

Thank you for sharing 🔥🔥🔥

2023 is going to have you doing more.

You can easily do \$9k in 3 months.

Look forward to it and don't drop the quality of your work

17:47

Alhamdulillah

Let's gooo🔥🔥 2022 is not over yet

Hi Mister Walter

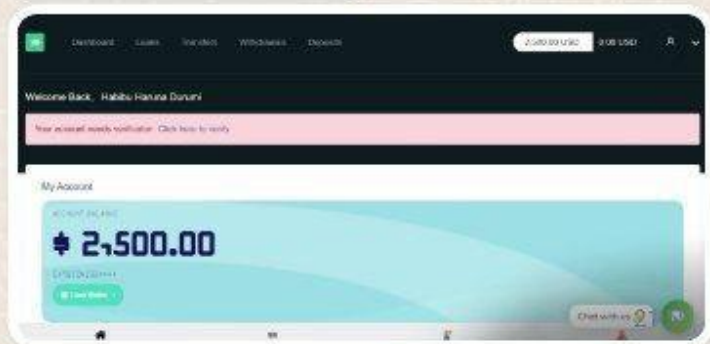

21:57

Just got a gig outside Upwork.

21:58

Done and dusted

21:58

This is my first gig.

21:59

Really want to thank you for the courage you instill in me

22:00

Good evening my boss. I was a suggestion for you having an agency website so that you leverage your freelancing career and begin plans to build a company of your own. Just a sug.

Don't think I'm interested in building an agency anymore

22:03

Was once interested tho

22:03

This is my first gig.

What service did you offer?

22:04

\$2500🔥🔥🔥

22:04

You

What service did you offer?

Who are these people? What do they do? Is what they do genuine? How can you become one of them? What do you need to become one of these individuals and also start earning hard currencies?

You will get to know the answers to these questions soon enough.

But before I move further, permit me to give a short intro of who you are receiving this valuable and potential information and knowledge from.

My name is Ndika Charles Jason; you can call me Jason. I am an affiliate of one of the top rated Affiliate platforms called Expertnaire. I am a graphic designer, a web designer, and I am currently building my brand which I call "Carlos' Create".

Also, I am an undergraduate of the University of Benin, Nigeria; currently studying Medicine and Surgery (this is a vision though, hope it comes true).

Nice, right? Yeah, that's all about me for now...let's move on.

Imagine working from the comfort of your home or wherever you are and making more money than people in offices. That is what freelancers experience.

A simple job of \$1000 monthly will pay you over ₦450,000 naira. Now while \$1000 a month is considered a low paying job. In Nigeria, some Managers do not even earn up to half of that. This, my friends, is the unfair advantage that freelancing gives you.

Now, let's get to know what Freelancing is all about...

What Is Freelancing and Who Is a Freelancer?

Freelancing means to work as an independent entity rather than be employed by someone. A freelancer is a worker who is self-employed and makes money working with different clients.

Most freelancers are remote workers, so they are able to work with businesses from all over the world and this is what gives you leverage if you are a Nigerian freelancer. You don't have to work with only Nigerians and have your earnings capped, but you can tap into international economies where you will earn BIG...

Now, what do these freelancers do, and how are they able to reach out to potential clients all over the world? What do they offer?

First, they have a skill. In order to become a freelancer, you need to learn a skill, not just any digital skill, but a high income skill. Skills that are in high demand, that people/organization need, most especially big and corporate businesses/companies. You need to have something valuable to offer in exchange for the big money.

A few examples of these high income skills are copywriting, UI/UX design, social media marketing/management, Funnel designs, Digital marketing, Email marketing, etc.

After learning a skill, the next thing you want to do is start selling that skill. You can do this on freelancing platforms like

Upwork, Fiverr, guru.com, etc. (these are small ponds, so competition is high). Or you can do this by attracting clients on LinkedIn, Facebook, or using cold emails (unlimited pool and plenty of big fish).

The reason I call freelancing platforms like Upwork, Fiverr, guru.com, etc. small ponds is that they are known as where clients are, so everyone is there.

Since everyone is there, competition is high and you have to struggle to stand out. This leads to a battle for small chops, as freelancers reduce their rates and what this ultimately ends up is you earning small amounts of money.

Upwork is a bit in-between in terms of pay, but the competition is still fierce.

However, using channels like LinkedIn or Facebook to get foreign clients will have you earning more and since the pool is a big one (unlimited pool, because new people keep starting businesses), you can find a lot of big fishes (deep pockets clients) who will pay you thousands of dollars for your service.

You only need one client to change your life. How do I mean? Well, it simply means that one client can change the trajectory of your life.

Imagine getting one client that pays you \$2000 monthly for writing or designs. That's over 900,000 naira, almost a million naira monthly.

That's good money and will even be better money when you invest it. With a huge pay of a million naira monthly, you get to

live a really comfortable life. You will forever be financially independent.

The best part is that you can get such and even more within 1 year of starting as a freelancer if you follow a proven path.

Congratulations r 15:48

There is a difference between a freelancer who is stuck on Fiverr earning just \$50 - \$150/ month and a freelancer who charges \$1000 upwards per project.

The difference mostly boils down to skill and positioning.

While one freelancer is saying “I am a graphics designer I do logos, flyers, and posters. Hire me!”

Another freelancer is saying “I help small businesses and upcoming brands increase and grow brand awareness and interaction through visually aesthetic designs”

The latter not only sounds better but also has the ability to charge more.

The latter are the people who make no less than \$1000-\$5000 monthly. They are the high paid freelancers.

You may ask – ‘Can freelancing make me rich’?

Now, imagine being a beginner writer and being paid \$1000/month or taking projects as a skilled writer at \$2000/project. If you take 5 projects a month, you'll earn \$10,000/month you'd make 5million naira per month. This is enough money to make you middle class (which people sometimes refer to as rich)

You may also ask - Can I freelance with just my phone?

The answer to this depends on what you do. If you are a freelance copywriter or content writer, social media marketer, or email marketer, you don't need a laptop, so yes you can do everything with your phone. But if you are a video editor, UI/UX designer, or web designer, you'll need a laptop.

\$1 = N450

If you charge \$1,000 /Client = N450,000

\$2,000 = N900,000

\$3,000 = N1,350,000

At 3 clients/month, you're making \$3K (N1.3M) monthly, working from the comfort of your home with clients you've never met physically before

The beauty of Freelancing

Don't miss this growing opportunity in the 'freelancing world'...

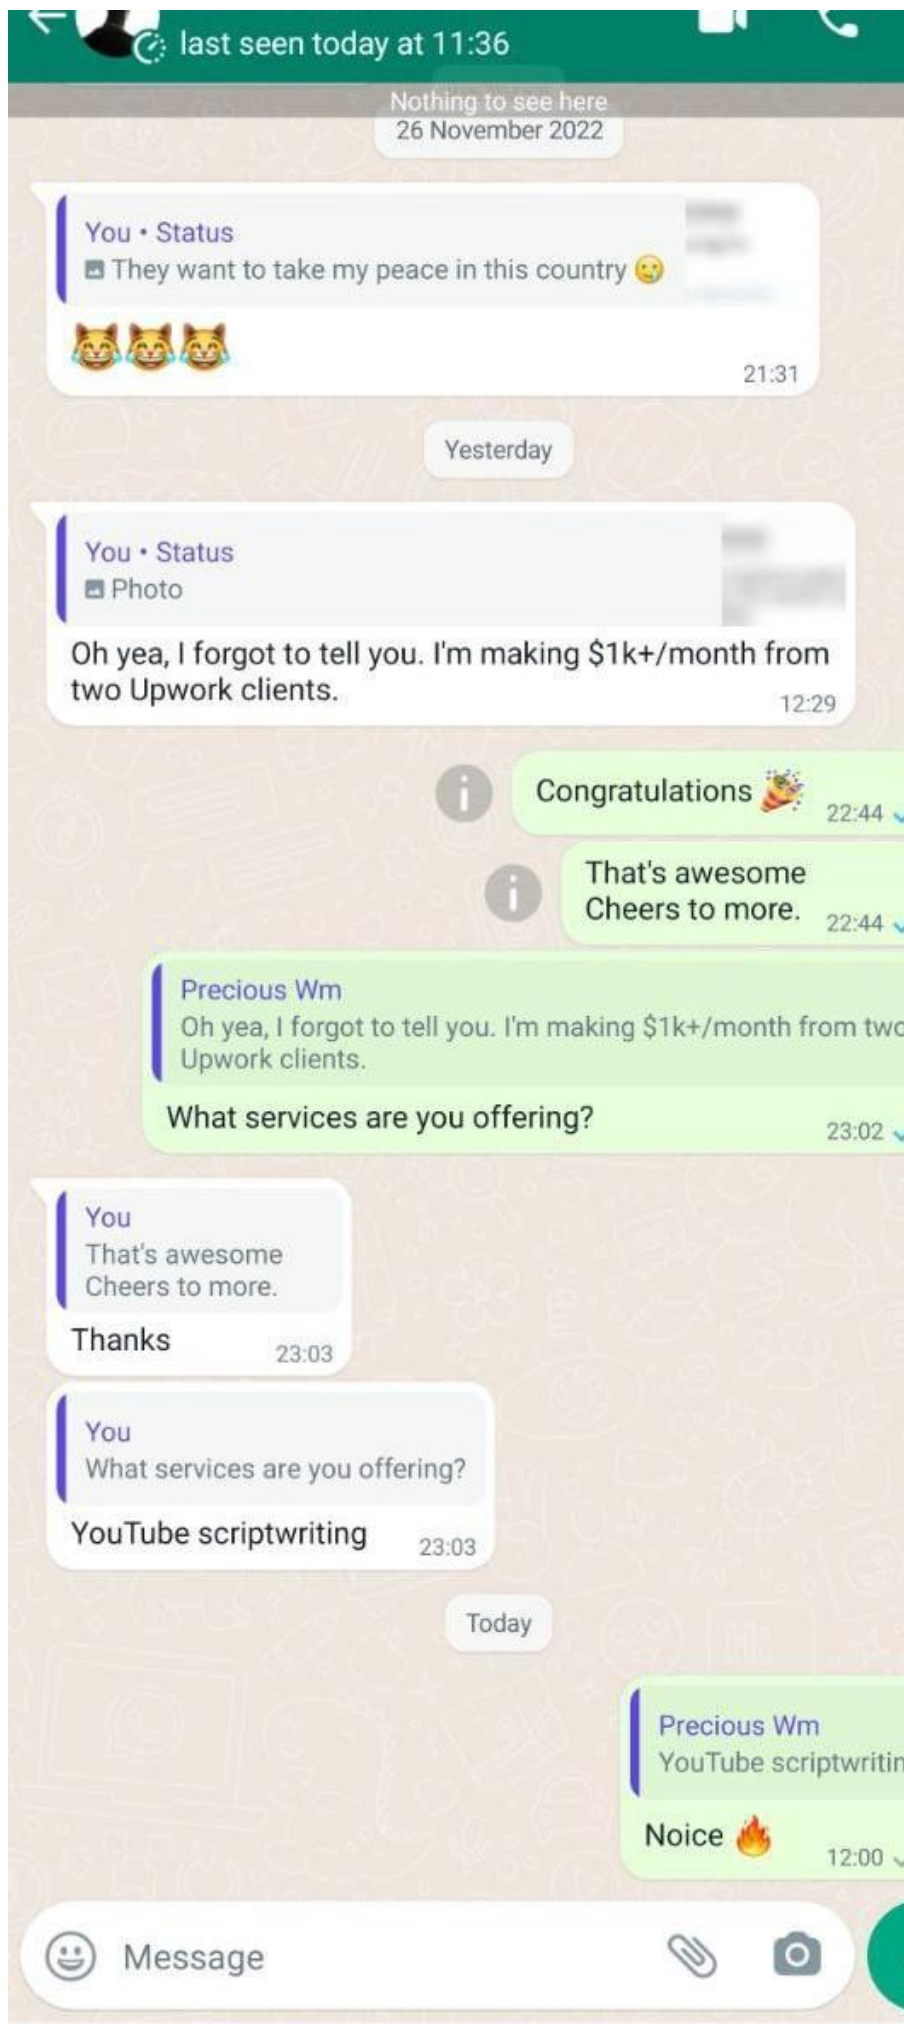

The fastest, easiest, and most reliable way to get high-paying clients as a freelancer is to be good at what you do and know where to look for high-paying clients.

Even if you insist on working on Upwork, you still need to be able to position yourself like an expert if you want to be paid expert money.

Work as smart and as hard as you can to the point where you can take a few weeks (even months) off work and still won't feel it. Why? Because you have a system/skill that brings you a lot of money for minimum input.

If hard work made people rich, then a lot of 9-5 workers would be billionaires. I mean they work the hardest, don't they?

Money follows value, so if you want to get rich, work hard and smart. And the smart part comes into play when you create value. You can do this by selling services as a Freelancer.

Do you know about Pareto's principle? It can be seen everywhere if you keep an eye out for it.

It states that 20% of something brings 80% of the results. For example, 20% of affiliate marketers make 80% of the money in the industry.

Same way, 20% of freelancers get some of the best-paying clients than the rest 80%. While it might seem unfair, it's just

math and natural. The more you succeed, the more likely you are to succeed.

So as a freelancer, as you get better, you have high-paying clients finding you not the other way around. What this means is that you can further increase your fees to filter them out.

Doing this helps you make more money by doing less work.

But all of this won't happen if you never start.

So Start Today!!!

How Can You Become One of These Top-Notch Remote Workers and What do you need??

To become one of these high earning freelancers, you need three things...

- An internet-enabled device (phone or laptop)
- A skill (as I mentioned earlier) and
- Knowledge on how to get clients

I can't help you with number one but if you can see this (or if you are in this group), then you already have it. But if you need numbers 2 and 3, I've got something for you...

Let me introduce to you what is called **'The High Paid Freelancer Premium Program'**

Now, what is this that I've just mentioned?

'The High Paid Freelancer Premium Program' is a course/training that will take you through what is called 'Client Acquisition' – you get to know how to position yourself in a right way (as a professional) to attract potential clients (mainly foreign clients), nurture them with the right words & questions

so that they perceive you to be someone who is good at what he does, and then close deals at huge gigs earning thousands of dollars.

The course will give you great insights on how to close high paying clients and create compelling offers using platforms like: Upwork, LinkedIn and Facebook.

This course/training was created by one of the top rated plus
freelance copywriter, a 7figure freelancer and client acquisition
expert named Walter Eyinnaya.

If you watch closely, the testimonials I sent earlier were from the students of Walter. They were all thanking and appreciating him.

There is a fast way to earn money and also a slow way to do so.

In the older days what we were thought was to go to school, find a job and earn, but the world is changing rapidly right now and that is no longer feasible.

Imagine starting something now and at the end of the year, you are making at least \$1000 per month. Yes, I know 450,000 is not that big but it gives you opportunities.

This way you can build solid wealth in less time. Three years ago the creator of the **'The High Paid Freelancer Premium Program'** made over \$40,000

HIGH PAID FREELANCER PREMIUM PROGRAM

HIGH INCOME SKILL FIVE

All, except UI/UX Design can be done 100% with your smartphone. This is really wonderful. And the thing is, you don't have to learn everything before you start earning, you can just pick one of them that interest you, learn, implement and start to earn thousands of Dollars with the already available client acquisition techniques.

Imagine learning a skill somewhere (with over 45k) but you don't make money because you don't know how to attract potential clients, close huge gigs, or projects that will pay you well.

This doesn't have to be you, you can learn most of these high income skills in **'The High Paid Freelancer Premium Program'** and still get a full-scale Client Acquisition Course so you are not left stranded.

Here's what ordinary people like you are saying since enrollment in this program, even on Twitter.

■ If you are a freelancer or you are are looking to become one then this is for you
👉 Learn how you can start from scratc...

Let people know he's good! I have a gig of 5000\$ because of him!

10:38

You see, most people believe that as a freelancer you need to be sending out proposals every day and working with new clients every damn time. But that's not true.

You are better off working with 2 clients at \$3000/monthly each. That's \$6000 (3million naira+ monthly). Not only do you earn really well, you also have more time so you can churn out quality work for your clients and at the same time find space to do other things.

The model above is only available to certain freelancers who know their stuff and what they are doing. And it is only a glimpse at the model you'll be learning in the **'The High Paid Freelancer Premium Program'**.

Imagine you go through the course and implement horribly, you get low rated results and close a gig for \$500, that's over 250,000. If you think about it, you still made that huge amount by doing things lazily.

Now imagine if you focused and closed just one gig at \$2000 monthly (that's 1 million naira monthly) in a year that's 12million. The best part is you get to keep all of the knowledge forever. No matter how you look at it, it is a win-win game guys.

Most people are scared to pay for online courses and while some might be for good reasons, the majority are not.

I get it, what's the guarantee that it would work for you? Or what if you don't make any money?

I will be honest with you, in life they are no guarantees and you are certainly going to make some mistakes. But you can avoid this by using data-proven results to make decisions.

'The High Paid Freelancer Premium Program' has shown you a proven path with tons of testimonials including from the creator himself. Two years ago, within 5months students generated over \$170,000 (77+ million naira) in paid gigs. They are poised to do more...

You can be a part of this statistics. Imagine earning just 1% out of this. That's \$1700 (770k+).

You may also ask these questions...

'Do I need a website to become a freelancer'?

No, you do not, however, having one to upload your portfolio helps you stand out and you can easily do that on google docs, google sites, or brizy.net. use their free web pages to upload your portfolio and stand out.

'What if I am new and don't have a portfolio'?

You can create a mockup portfolio. Walter teaches this and a lot more in his course **'The High Paid Freelancer Premium Program'**

“How long will it take me to start seeing money after I get ‘**The High Paid Freelancer Premium Program**’?”

Well, the answer varies. If you already have a digital skill, you'll typically see results faster (about 2 – 6 weeks) because all you have to do is implement client acquisition. But if you don't have a skill, you'll have to learn one from the course first and then learn Client Acquisition.

Overall, it depends on your hunger and how fast you are willing to go.

These are other testimonies from students who have engaged in this course...

Message

Okay...for quite some time now, I have talked a lot about the high-paid freelancer premium program and I feel like I'm making the program sound like it doesn't require much work.

This isn't my intention, so I just want to clear that up. If you are willing to put in the required effort on the program, even if it's just 2 hours a day, you'll see explosive results. However, if you buy the program and just leave it there, or you don't put in the required effort, you won't get any results...

One of the bonuses that comes from getting into the program is that you get to join a support group and get the creator's contact so you can ask questions whenever you're stuck or need assistance. That's really nice.

Do you know why many people will not be rich? Fear.

You see an opportunity that is literally calling your name, but you ignore it because 'you need more information.'

The rich take action with 40-60% info and gut feeling. It's called taking a risk.

Don't let fear rule your life. Don't let it make you lose this opportunity to learn from one of the best freelancers.

Take control of your financial status now.

The best way to time travel is to take a close look at what you're doing today.

What are your habits?

What are your beliefs?

What are you doing consistently?

What are you investing in?

That's you in 180 days unless you do something different. Count on it.

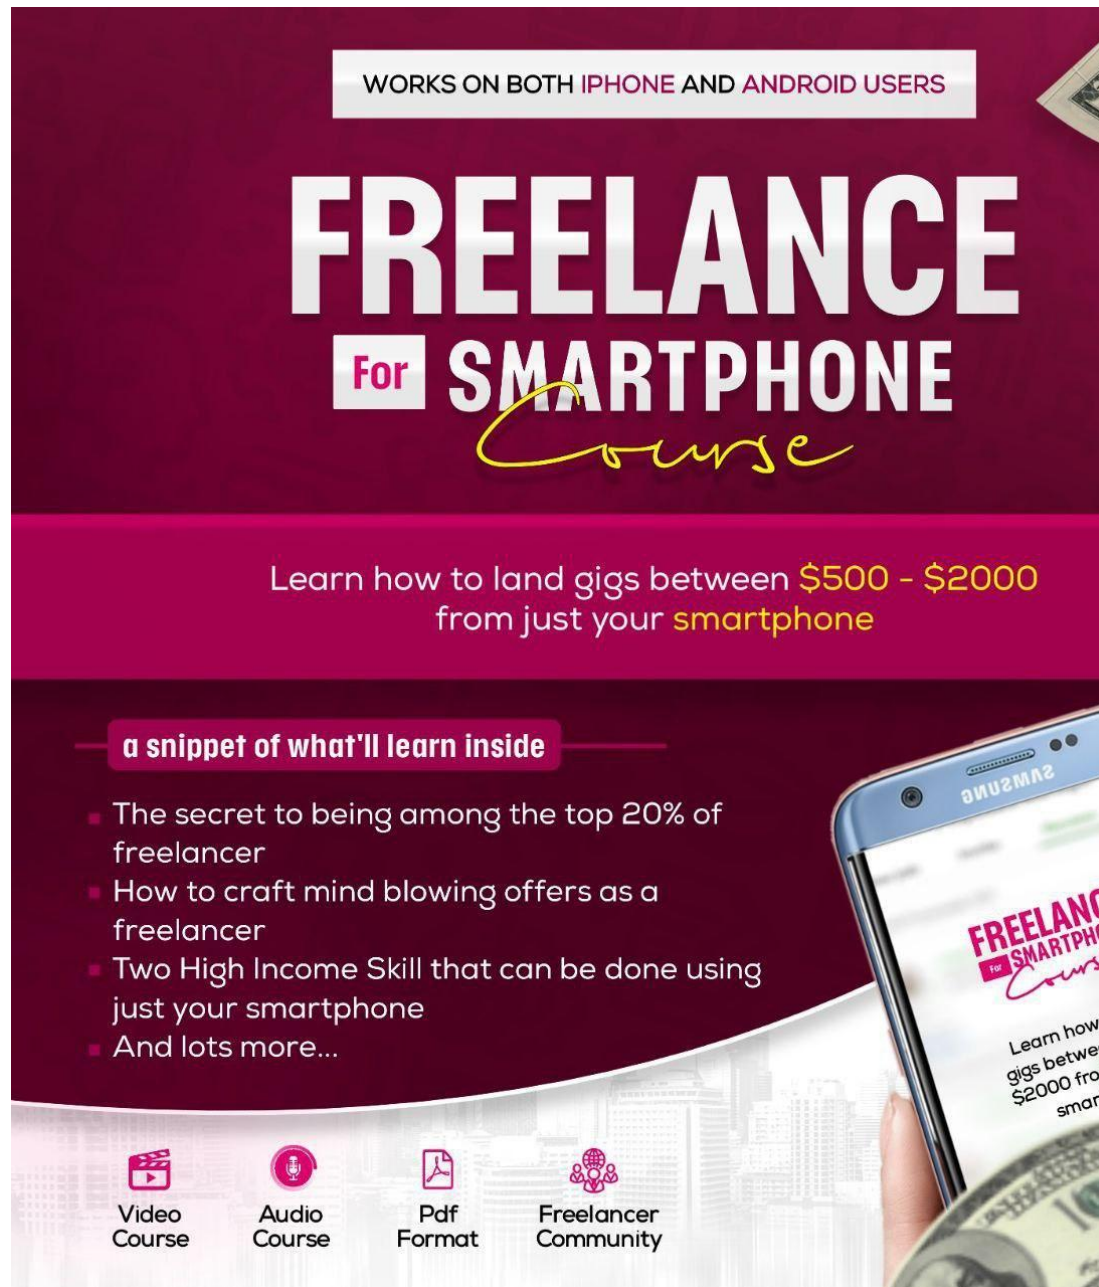

This is also the best way to know if you'll have a different financial future or you'll still be stuck with the low income currently.

Do something different today. Take The Required Action Now and Be Financially Independent Forever!!!

Go Here to Get the Full Details on What Walter Enyinnaya has to offer [Start Earning Thousands of Dollars](#)

One more thing before you click on the link...

Now, Walter has this **'The High Paid Freelancer Premium Program'** sold for a particular price. But on the long run, some people wanted a lower price course with all the skills within the course to be done 100% with their smartphone; so Walter created another course program called **'Freelancer for Smartphone'**.

WORKS ON BOTH IPHONE AND ANDROID USERS

FREELANCE For SMARTPHONE *Course*

Learn how to land gigs between \$500 - \$2000
from just your smartphone

a snippet of what'll learn inside

- The secret to being among the top 20% of freelancer
- How to craft mind blowing offers as a freelancer
- Two High Income Skill that can be done using just your smartphone
- And lots more...

Video Course Audio Course Pdf Format Freelancer Community

The advertisement features a maroon background with a city skyline at the bottom. A smartphone on the right displays the course title and a list of benefits. Icons for video, audio, PDF, and community are at the bottom. A small graphic of a dollar bill is in the top right corner.

Though you get to learn about client acquisition fully, it has only two high-income skills:

- The Kickass Copywriter Course.
- The Content Writing and Content Marketing Crash Course.

...and it is sold at a lower cost price. So it's your choice, you get to choose the one you feel is more favourable and convenient for you. But obviously, come to think of it...you know **'The High Paid Freelancer Premium Program'** is better.
