## **WHAT IS A GOLF?**

- You target the board, aiming to strike the enemy at the far end, it's like Ohajiki, but played horizontally. collect Puni balls and bonus balls to deal as much damage as possible to the big boss. Be sure to avoid the purple "nuisance" balls, as they will reduce the damage you deal. As the levels increase, the boss's HP gets higher.

# SPRAICHON'S UNIT REVIEW

## [Yo-kai New Year's Shrine Visit]: Auspicious Enma

- New rank is here, ahh, so nostalgic for when Crossma  came out. Anyway, he's pretty good and can actually be used in battle even if he has the golf bonus since drop big is amazing. Idk if the center trait needs to be unlocked, but it's kind of like a unity, F2P rejoice? Probably replaced Bosou on the normal team, but we'll see.

## [Yo-kai New Year's Shrine Visit]: Shadow Oni

- A slight upgrade to Puppet Gunshin  bc this guy is apparently the throne, so LB 10. Cool.

## [Yo-kai New Year's Shrine Visit]: Plus KJ

- You were supposed to buff Brave, not be added to the pile of mid! He's usable with Megumin , just like the other 4 fever extenders they have. Ig if you didn't make Itsuki  the Uz he's the highest ranking one, but that's your fault.

## [Yo-kai New Year's Shrine Visit]: Plus Komasan

- He just sucks tbh. Cast fever if you're missing the good ones ig

## [Yo-kai New Year's Shrine Visit]: Plus Jibanyan (Mid Event)

- Umm, gate of whimsy strat? Usable for that, can be good for F2P heartfelt, but just alright outside of those

## [Yo-kai New Year's Shrine Visit]: Plus Whisper

- He's okay. Nothing special, can probably find use in a seal stage

## [Yo-kai New Year's Shrine Visit]: Super Awakened Slurpent

- Really just not useful, like, it all. If you want guard, use Musical Venoct

## [Yo-kai New Year's Shrine Visit]: Super Awakened Copperled

- RIP Z ranks, as this is the Paid Pack. He's actually fairly decent, but not for slip, with their 3038+ other revive options

Thank You For Your Support!
