

I am Mr. Archie M. Torcende, a J1-Culture Exchange Program Teacher from the Philippines. I am currently handling High School Mathematics such as Algebra 1, Algebra 2, and Geometry in Clayton High School. I have been teaching for a total of 20 years, 17 years in the Philippines and 3 years in Arizona, USA.

As an international teacher from the Philippines, I bring strong commitment to fostering diverse and inclusive learning environment. With a deep understanding of global perspectives and a passion for cultural exchange, I aim to inspire students to embrace life-long learning and cross-cultural understanding. My approach blends the rich educational traditions of the Philippines with innovative methods in teaching incorporating varied use of technology and interactive ways, creating a dynamic classroom experience that empowers students to succeed in the globalized world.

In addition, as a Mathematics teacher, I am dedicated to making Math accessible and engaging for students from diverse background. I strive to cultivate critical thinking and problem-solving skills in my students, helping them see the beauty and relevance of Mathematics in everyday life and preparing them to succeed in an increasingly interconnected world.

In conclusion, I am committed to nurturing a passion in Mathematics in my students, guiding them to achieve academic excellence and develop the analytical skills necessary for global success. By blending traditional Filipino values with modern, student-centered approaches, I aim to create a learning environment that not only challenges students but also supports their growth and confidence in Mathematics. Together, I believe we can unlock each student's potential and inspire a life-long appreciation for the power of Mathematics.
