

UNGOC COMMAND

Confidential // Eyes Only

This document is a detailed report of the events leading up to, during, and proceeding Operation “Mincemeat,” carried out by strike team [1121] “Noble Phantom,” team number four.

The only operatives with the clearance to read this document are members and leaders of [1121], Physics COs, and UNGOC command.

Listed below are the four operatives present on this mission:
| SGT “Tailor” | LCPL “Shell” | SPC “Zed” | SPC “Bandit” |

Do note that due to the content of this operation, data has been expunged in post for the safety of our operatives, ourselves, and our neighbors.

Be advised the content within this document may cause members of [1121] to have bouts of PTSD, mania, and/or nausea due to the nature of the operation and the data retrieved for accurate logging.

Lastly, due note that eyewitness accounts are not always 100% reliable, but the data here has been confirmed by photographic evidence and corroborated by individual accounts from each of the four members of ST-1121/4.

“...and the Wolf will lead the way, and the Lamb shall guide the shot.”

- [REDACTED] “The Capricious” [REDACTED] -

Foreword

This section is only included in our document to you, at the Foundation.

We extend this document to you at the Foundation as both a sincere apology for our blunder, an explanation, and an olive branch. We are terribly sorry for what our negligence has caused, no matter the severity. We are already developing measures preventing further harm to come from UNGOC operatives who defect, ensuring the safety of both the UNGOC and Foundation.

We heard that our recently installed embassy at your Site-████ had gotten removed, and we can only imagine it is because of the rogue team [0093] and the harm they caused you.

If you would, we request you meet with our operatives in the UNGOC Pinewood FOB for discussions on reinstating the embassy, as we quite enjoyed the progress we were making for good will between our two groups.

Again, we apologize for this occurrence, and wish you the best of luck in rebuilding the damage caused by them. If there is anything we can do as a form of reparations we would enjoy discussing that as well.

Signed one MAJ “The Capricious”

Pre-Operation

[2/9: First Sightings]

Recent sightings of a cult were reported near Pinewood in the [REDACTED] region of Canada. KEWPIE Site-[REDACTED] is placed at [REDACTED] miles [REDACTED] from its location. Strike team [1121-4] headed by SGT “Tailor” was sent out to investigate.

[1121-4] landed [REDACTED] miles away from Pinewood at [REDACTED] 00 on 2/9 and proceeded their hike through the snow towards lake [REDACTED]. Team [1121-4] made contact with the inside of the lake house at precisely 03[REDACTED] the following day.

The lake house is small. It consists of one larger room that takes up most of the home, and a smaller closet area. Symbols, now known to be Sarkicit in nature, were found plastered along the wall of the larger room. Four dead bodies were present. Three in the larger room and one within the closeted area.

The following photos were taken on site. Viewer discretion is advised due to gore and death.

[View Photos](#)

Upon further inspection teeth marks were found on the bodies, with major portions of their organs missing, amount varying depending on the cadaver. Each body had their heart missing in full, however. The teeth marks were determined later to be human, suggesting these rituals were cannibalistic in nature.

The following is a transcript of transmission PC-05447 from one SGT “Tailor” to a MAJ “[REDACTED]” upon reaching the investigation site:

Colors: ST-1121/4 consisting of leader “Tailor” (Blue), scouter “Zed” (Red), scouter “Bandit” (Green), marksman “Shell” (Yellow)

Box: Central Command

Blue: *distorted* -ors to Box. Colors to Box. Come in, over!

Box: I read you Blue but you've got lots of static. Status report, over?

Blue: *distorted* We have made contact with a lakehouse, document time at 03██, can't write down shit in these winds. We are about to enter. If you receive no report from us within 15 minutes consider us lost, over.

Box: Noted.

- 5 minutes pass -

Box: Blue do you read me, over?

Blue: Read you loud and clear. Storm has died down, thankfully. We have four dead civilians in here, occult symbols too. All died through disembowelment. Green is taking pictures of it all now, over.

Box: Get that all documented best you can, rituals can never be good, especially around KEWPIE sites. We will be sending in a chopper to pull you out pronto, over.

Blue: Send them with some tea too, my mitts are not doing nearly enough to keep my hands warm. Over and out.

After successfully evacuating team [1121-4] and their findings get analyzed and returned. All symbolism present within the building is confirmed to be Sarkicit, but intentions are still unknown.

16/10: Contact

As a result of the previous cult related sightings around Pinewood, heightened security measures were put into place. Weather balloons and any passing by satellites were targeted on the [REDACTED] square mile area surrounding both KEWPIE Site-[REDACTED] and Pinewood to ensure the safety of all individuals housed there.

Late in the day on 6/10, movement of a UNGOC group was found. No records of any mission were found to be active within this area of Canada. The group, later to be identified as the decommissioned [0093], seemed to be heading [REDACTED], away from the KEWPIE base at doubletime. Squad [1121-4] was sent in to investigate.

[1121-4] landed at approximately 0400 as [0093] seemed to rest during the day as opposed to night, most likely as an effort to hide their movement. [1121-4] was placed [REDACTED] miles ahead of [0093]. positioned [REDACTED] of KEWPIE.

The following is the transcript of conversation between the group upon first contact with [0093]:

Colors: ST-1121/4 consisting of leader “Tailor” (Blue), scouter “Zed” (Red), scouter “Bandit” (Green), marksman “Shell” (Yellow)

Blue: Stay alert everyone. We should be within [REDACTED] miles of this unit, and we have not confirmed their intent yet. KEWPIE is also nearby, so extra caution is advised.

Yellow: Just give me the word sir, and their heads will be whipped like a-

Green: Comms. U.F.E spotted, 2 o’clock.

Yellow: Compass.

Green: 242 due northeast.

Blue: Red do you have eyes, over?

Red: Confirming. Five foreign entities wearing UNGOC uniforms. Two more heavily injured, two more wearing red robes. Four on watch, five asleep, over.

Blue: Can anyone see some identifying marks? Squad numbers, emblems, anything?

Red: I can confirm marks on one, seems to be a LT. Callsign [0093].

Yellow: Isn't that group defunct? I say we just-

Green: Shut the fuck up Yellow some of us are trying to focus.

Blue: Keep your calm, the both of you. We need to regroup before we engage. They might be injured but a group like them out here doesn't get injured from nothing...

Red: I'll rendezvous ■ miles due west of your position.

[End of Transmission]

After cross referencing some documents, it was found that [0093] "The Whispers" were a long disbanded group that had been marked as KIA years ago. Either someone found their gear, or they never died...

Due to the presence of some interestingly dressed individuals, we believe this group to be related to the lake house incident, working with or under the Sarkicit cult.

After meeting up, [1121-4] continued their mission trailing [0093] now that they confirmed their location and numbers. After about 28 hours, team [1121-4] made contact with the UNGOC rogue cell.

OPERATION "MINCEMEAT"

Date: 7/10

Hour: [REDACTED]

Type: Cleanup

Objective: Terminate all active members of 100931

Colors: ST-1121/4 consisting of leader "Tailor" (Blue), scouter "Zed" (Red), scouter "Bandit" (Green), marksman "Shell" (Yellow)

Box: Central Command

Vulture: Sarkicit cultist

Blue: Box we've got trouble, over.

Box: What seems to be the problem, over?

Blue: We have made visual contact with Zero-Zero-Nine-Three. Requesting permission to engage. Awaiting orders, over.

Box: It's time to earn those paychecks boys. If you can take some of them alive it would be most appreciated, but your safety comes first. Give 'em hell, over.

Blue: Understood. Call time at [REDACTED], over.

- [REDACTED] hours pass -

Green: Look man, just tell us why you were there and we swear. We'll kill you before letting Yellow have her fun.

Yellow: Man this is the only fun I get being in this fucking freezer of a country, don't ruin this for me.

Vulture: Please don't hand me over to that freak! She's more sadistic than us...

Red: Then start talking. Now.

Vulture: Fine! Fine... We were here for the relic.

Blue: A relic? What kind o-

Vulture: Not *a* relic you insolent fool! *THE* relic. Horns so beautiful and skull so pale. Truly a masterpiece of the cosmos.

Red: Calm down you freakshow before I- *audible heavy caliber gunshot*

silence

Blue: *screaming* Yellow what the fuck did you just do!

Yellow: Well I didn't *mean* to do it, my gun must have malfunctioned!

Blue: God fuckin- *audible sigh* Well I guess our mission is over then. Box, do you read me, over?

Box: Read you loud and clear. What's the situation? Are you ready for transport, over?

Blue: We are indeed. Yellow just shot our prisoner in the face on *accident*, over.

Box: Again? *heard quietly* You owe me lunch for the next week! Yellow did it again. *laughs* *fully audible* Alright Blue, sending a chopper your way. Good work, over.

Blue: Over and out.

[End of Transmission]

Conclusion

[Here](#) are the photos of the neutralized campsite.

Confirmed now is the fact that [0093] was still functioning and operating with the Sarkicit faction, and have since been terminated. We have also confirmed that the cultist, in the little information we did gather, was talking about KTE-323-Fiji-Frued, the head of a deer-like animal that induces cannibalistic natures in its victims. This would make sense as practitioners of the Sarkic faith practice cannibalism ritualistically.

It seems that they were much larger in number before we found them, twelve in total to be precise. It seems their raids on KEWPIE did not go as planned leaving two injured and three dead. Thankfully we have wiped out the rest, but I wish we had found them before they raided a KEWPIE base looking like us. This is going to require lots of paperwork and even more in diplomatic measures...

What eludes me is this: why did they believe that it, referring to KTE-323-Fiji-Freud, was being housed in KEWPIE Site-██████? Perhaps CARCINOMA or MCCONNELL sold them some bad info and made a quick buck. Perhaps they heard the rumors connecting it to this area and thought KEWPIE had gotten to it before they could. Whatever the reason, members who appeared as representing the UNGOC made contact with KEWPIE, so we must act fast to make sure nothing gets out of hand.
