Summary

A motivated computer science student passionate about software development, with knowledge in C#, .NET, and web technologies. Currently enhancing skills through self-learning and projects.

Experience

Digital Egypt Pioneers Initiative (DEPI) | .NET Web Development Internship

Oct 2024 – May 2025

- Gained hands-on experience in developing web applications using both .NET Core API and MVC frameworks. Collaborated with senior developers to ensure efficient integration between the API and the front-end, improving system performance.
- Assisted in database management and API integration, ensuring smooth data flow across systems.
- Actively contributed to code reviews, bug fixing, and the development of new features

Projects

ATM Simulation System • C#

Developed a simple console-based ATM application in C# to simulate essential banking functions such as balance inquiry, withdrawal, and deposit. Implemented password authentication and user-friendly menu navigation.

Personal Portfolio Website • HTML, CSS

Designed and deployed a personal portfolio showcasing skills and projects.

Food Lover Restaurant Website • HTML, CSS, JavaScript

Designed and developed a responsive and visually captivating restaurant website featuring high-quality images, seamless navigation, and a functional booking system. This project showcases expertise in creating user-friendly web experiences tailored to the hospitality industry.

Skills

- Programming Languages: C#, JavaScript
- Frameworks Technologies: ASP.NET Core, MVC, Entity Framework, LINQ
- Frontend Development: HTML, CSS, JavaScript
- Tools Technologies: Git, Visual Studio, SQL Server
- Soft Skills: Problem-solving, teamwork

Education

B.Sc. in Computer Science • Mansoura University (Expected Graduation: 2026)

Courses

- C# and .NET Development – Udemy (2024)
- SQL for Beginners – Coursera (2023)

Languages

- Arabic – Native
- English – Good
