

My college

I spend a lot of time at college. This place is like my second home. I think that college years are one of the most important parts of our lives. It's the time when we get major knowledge on different subjects, certain skills and experience for living in the society. It is a four-storey building with light and spacious classrooms. There is a college playground and an athletic field outside the college. Apart from classrooms we have a library, a cloak-room, a gym, a dining-room, an assembly hall. The halls are full of useful posters and stands. The headmaster's office is situated on the second floor, while the room for teachers is on the third floor. We have lessons from 8.45 am till 3.30 pm. Our college works from Monday till Friday. The breaks between the lessons usually last 5 minutes. During the longest break we go to lunch. We eat and chat together. When we have PE lessons our teacher takes us to the gym. If the weather is warm, we can have the lesson outside. We do lots of exercise there and sometimes we play team games. Next to the college, there is a two-story building with well-equipped workshops where we conduct classes in special disciplines. I think life would be boring without college and it's a pity that college years don't last longer.
