I've invited them to come reprise their presentation for the Channel One audience this week! They'll open with their prepared talk, which covers practical insights on a range of metrics used to evaluate TAs' success, discussion of specific software tools and data management strategies that can streamline TA evaluation, and tips on effective advocacy for future agreements. We'll close out with our special brand of Channel One community forum time, and all are encouraged to come pick our presenters' brains about the TA context here at SCELC!</p> <p><b>Presenters:</b>          Maria Savova          Senior Director of Collections, Metadata, and Resource Sharing  <i>The Claremont Colleges</i></p> <p>Amy Pham          Senior Electronic and Open Content Librarian  <i>University of San Diego</i></p>
