Blessed SacramentSchool
Mrs. Santos/ Ms. Infante

Dear Parent:
The following objectives/concepts will be addressed in your child's class during the two weeks. Specific assignments will be found in their assignment books.

1st – 8th WEEKLY OBJECTIVES

Week of: Nov. 9th

Grade : 5thA/B

SUBJECT	OBJECTIVE
Religion	TLW: Objective: The sacrament of penance strengths our relationship with God and others. Lesson 12 The celebration of Penance and Reconciliation " Test on Monday Oct 9th"
Reading	TLW: Students will demonstrate their understanding of the completed novel Holes by Louis Sachar by analyzing characters, setting, plot, conflicts, themes, and the author's purpose. Students will use text evidence to support their responses and reflect on the novel's overall message through comprehension and review activities. Genre: Realistic Fiction ****Final Composition Due on Friday November 13th****
Spelling	TLW: Students will review and reinforce previously introduced spelling words from Holes through engaging activities focusing on correct spelling, word meanings, alphabetical order, and sentence construction. Students will demonstrate mastery by correctly spelling and applying the words in meaningful sentences and written assignments.
ELA	TLW: Students will identify and apply the five stages of the writing process: prewriting, drafting, revising, editing, and publishing. Using Holes as inspiration, students will brainstorm ideas, organize their thoughts using a graphic organizer, and begin writing a structured composition that includes an introduction, supporting details, and a conclusion. ****Final Draft Composition Due on Friday November 13th****
S.Studies	TLW: Identify ways in which Europeans compete for economic opportunities in North America. Chapter 3 Lesson 4 The French and Dutch in North America " Thursday Nov 12th Chp 3 lesson1-3
Math	TLW: Students will multiply multi-digit whole numbers using the standard algorithm and review previously learned multiplication skills to prepare for a formal assessment. Chapter 2 Lessons 4-7 **Test on Thursday, November 12th**

Science	TLW:Students will demonstrate that electrical energy in complete circuits can be transformed into motion, light, sound, or thermal energy. Chapter 4 Lesson 2 Electrical Energy Test" Thursday Nov 12" Chp 3 Lesson 1-2 properties of Matter"

TLW = The Learner Will
