Status update: Writing for realz. (For realz, maaaaaan you crazy Bhodi!)

I did get started on some non combat encounters with the Dryads of Nox (they lactate sap wut?!) [IncreaseSkill("SweetTalking")], [IncreaseSkill("Domination")] and other social skills will feature in that content, but I'm gonna stop workin on that till I get done with this. I'm adding in skill mods/checks/variants to my scenes old and new, I plan to use ("Fellatio"), ("Cunnlingus"), ("Experimentation"), ("Fucking"), ("Anal"), ("Domination"), ("Orgies"), ("Kissing") and anything else that may apply. Uh...[IncreaseSkill("Experimentation")]

Notes: In progress. A history of sapient and wild slimes, their dietary requirements, methods of reproduction, their place in the world of Nox, how they interact with other sapient species and cool shit like that. I'll have to wait for more basic info on the realm before I finish.

As this Doc grows in size due to the metric fuck ton (it's a unit of measurement, ask any foocubus) of content that'll be added in the future, I'll be adding a table of contents with links to the respective areas. (Damn, you crazy as shit...)

Joke (No joke, this is totally a thang): So I hear slimes in the realm of Nox are susceptible to dyeing.....can we make jizz colored ones? Just imagine it, sapient blobs 'o spooge painting the board you're in white with trails of viscous fluids....**THERE ARE PEOPLE WHO LIKE THE WAY THEY TASTE!**

I added inline ifs today, so small differences can be inserted without requiring an entire new paragraph. I'll add clothing filters and tokens later. I'll need them for something you wrote, but I can't remember if it was Slimes or Chelsie.

Slime codex (Let me know what'cha think, I'll add an history section once we have some concrete details for the world. Gonna add some more information about **Dark slimes** later.)

Racial traits: Racially, slimes are extraordinarily distinct. Their most prolific feature is that their

bodies are composed entirely of a semi-translucent, viscous, gelatinous material. The exact viscosity and transparency vary from slime to slime. They have a thicker, leather-like external membrane, that serves as a skin, which is smooth, warm and slightly humid to the touch. Slimes have monochromatic skin, which comes in a wide variety of colors. They possess pupil-less eyes, that are usually a different shade of color than the rest of their bodies, but never a different color entirely. Slimes usually do not wear clothing, since they do not feel discomfort from heat or the cold, the slimes only wear armor or clothing to differentiate themselves from one another and protect themselves. There are slimes that possess less intelligence than others, thus they are regarded as an uncivilized subspecies by the other natives of Nox. All and all, they are an adaptable species that can survive in almost any environment, though they are drawn to dark, damp places, and are rarely found too far from some source of standing water, provided they have a ready supply of the "food" that they so relish.

Physical traits & Appearance: Slimes strongly manifest whichever sexual characteristic they gravitate towards when they first develop a personal identity. Some slimes have wide shoulders, masculine features, angled faces, and a phallus. Other slimes have feminine facial features, plump lips, thin waists, large breasts, wide hips and plump rumps. It is not uncommon to find slimes who possess the features of the latter and the phallus of the former. All slimes possess gooey hair that flows freely from their heads, stray strands of vicious hair follicles are reabsorbed by their bodies as they fall off as syrupy droplets.

Anthropology & Psychology: As a whole, slimes tend to be outsiders from most of society, rarely forming into groups of more than two or three. They do, however, gravitate towards larger settlements; slimes are the closest to being wild of any of the civil races in the realm of Nox, with some wild slimes being unable to speak. Still, settled areas are hubs for "food" and protection, both of which slimes seek out. Although generally characterized as being somewhat lacking in mental aptitude, it would be far more accurate to say that slimes possess a vastly different set of values relative to other species.

Physiology: Slimes possess several unique biological features. While even the most exotic creatures in Nox are still composed of bones, cartilage, and muscle, with some sort of respiratory and circulatory system. The body of a Slime is composed of only five different types of tissue: skin, eye, digestive, reproductive, and muscle. Slimes secrete an aphrodisiac from their bodies, which increases in potency as they become more aroused. Those who have been exposed to it describe the experience as really....hot for a lack of more elegant words. This natural chemical can be "harvested" from the body of a slime, and preserved in some readily available container for future use.

The outermost layer of a slime's body is skin tissue, an amorphous solid that is soft to a gentle

touch, but hardens proportion to the force exacted on it. Slimes do not exert conscious control over this tissue, instead relying on connecting tissues to move and shape it. Slimes are capable of converting muscle and skin tissue into one another, although this takes some time. If left without a skin membrane on its outer body, slimes lose the ability to control the shape of their body, leaving them as a lump or blob.

Muscle tissue composes the vast majority of a Slimes body. It is a viscous fluid capable of both expanding and contracting, as well as connecting to nearby tissues. Combined with a rigid internal or external structure, it allows Slimes a great deal of control over their shape and overall appearance.

The digestive system of a slime is specifically designed to process sexual fluids, deriving nutrition from breast milk, sperm or female excretions. Slimes then convert the newly processed fluids into more muscular tissue.

Slimes are asexual and reproduce by mitosis, yet manifest distinct male, female and hermaphroditic physical characteristics. Reproductive processes are a separate part of a female or herm slime's mind, being compatible with their biology, but not truly a part of it. It acts as a slime's natural survival mechanism, allowing them to build a bud of muscle and digestive tissue independent of its own sentience, which allows this newly independent lump to begin developing an intelligence of its own, thus reproducing. In order to prevent direct cloning in this fashion, when slimes are ready to reproduce they seek out others of their kind to contribute in the formation of a new slime or find a female "host" from another intelligent species, implanting the bud within their wombs, letting it incubate within the surrogate mother. In either case this allows the species as a whole to become more diverse. Dark slimes always reproduce by finding an (usually) unwilling host for their daughters.

Young slimes take some time to learn how to properly control their body, remaining as small blobs. During this time they can not reliably generate digestive tissue on their own, relying on their mothers for sustenance. Female and Herm slimes produce a thick, syrupy liquid concoction known as ambrosia designed specifically to feed their offspring, ambrosia's flavor can only be associated with a slime's color and many (decendent: Nah it's everyone, not just the excessively wealthy, those who have a taste for the exotic, and wut not :P) individuals endeavor to try them all. Female Slimes will generally store ambrosia in their breasts and engage in breast feeding as an maternal instinct. Demonic slimes or "Dark slimes", lactate a highly hallucinogenic variant of ambrosia. By the time young slimes reach maturity, they can form their own digestive tissue reliably, learning how to form bodies, associating themselves with a gender by instinct and most importantly feed.

History (TODO: I'll get around to it when the realm is fleshed out. I don't want to fall into the trap of having their history revolve around prior stuff and locking slimes into a highly specified racial mindset. Every slime you meet should feel unique. I'll touch on their creation and go crazy from there.):

====> Scene : PC victory against a slime. (Done.)

[Friendliness: Hostile]

Deciding to claim the "spoils" of your victory rather than it's life you gaze upon the defeated slime's semi solid body with an aroused glint in your eyes, simply thinking of the myriad of pleasures your victim's mailable body could provide sends a shiver down your spine getting you all bothered and hot.

====> Scene: PC gets some oral action. Action: See how good he/she/it is at licking pussy? (Now with 100% more sexy, Status: Complete.)

A slutty groan of desire escapes your throat as you saunter up to the slime swaying your hips sensuously. Giving your lips a, long slow, lick you part your steadily moistening pussy lips, letting it know in no uncertain terms what your plans for it are.

The slime can only watch languidly as you close the distance betwixt the two of you and rub your labia in his/her/it's face, imploring it to have a taste of your slick honey pot whether he/she it wants to or not.

Quite literally faced with your unrelenting grinding the slime gives in to the mounting pressure and opens his/her/it's mouth, exposing a goopy tongue before your lower lips. With an extended "Ahhhhh~", he/she/it slides his/her/it's tongue along your slick delta once, before proceeding to probe the sensitive petals of your delicate flower with his/her/it's skilled tongue, making you cry out lustily in an effort to spur your pet on.

As it spreads your moist lips apart with his/her/it's flexible oral organ a wave of gentle heat assails your twat, making it feel so....mmmmmm~....jusst...soooo...hot and juicy! Looking down you see his/her/it's eyes dart about innocently as he/she/it hums, the resulting vibrations making your box tingle in the most delightful way. Your cascade of slutty juices lubricate it's tongue before he/she/it forces that lovely oral muscle deeper, injecting you with another dose of that heavenly warmth.

Finally getting into the groove, you lower your body along, with your partner's head, to the ground and begin to buck your hips to the rhythm of your gradually quickening heartbeat, sending subtle vibrations through your slimey oral slave's sensitive membrane. You don't know why, but this seems to have some sort of effect on the slime, sending him/her/it into some sort of passionate frenzy, and before you know it your velvety love canal is being filled with an ever increasing amount hot gooey tongue soon followed by a symphony of highly erotic inarticulate gurgles of mindless lust emanating from your slave's entire being.

Moaning like a whore, you bounce yourself along the slime's oral intruder again and again, rocking your hips slowly at the tip before bottoming out again, impaling yourself with glee as his/her/it's tongue brushes gently against your cervix sending that maddening heat into your womb. After several glorious minutes of rough face riding, a second, smaller tongue branches off from the first and slowly circles your clit giving it a sample of that tender heat. You stop your wild bronco ride in stiffened anticipation for what is about to transpire, and without warning he/she/it attacks your love button mercilessly driving you into an explosive orgasam.

Thoroughly sated you rub your cunt on the slime's face as he/she/it cleans your juicy femcum off of your snatch till it's spotless, before heading off to continue your journey with a smile on your face and a pep in your step. [IncreaseSkill ("Domination")]

====> Scene: PC gets a blow job. Action: Get some head? (For a normal sized penis, Status: Complete.)

Smiling deviously you stride up to the slime and discard your lower garments, asking the slime if he'd/she'd/it'd like a tasty tre..., when you are rudely interrupted mid sentence by a sudden lunge from the slime. Seeing that he's/she's/it's far too eager to suck you off than you'd like you

casually sidestep the cum hungry slut/bastard; if he/she/it wants to have his/her/it's throat speared by your dick that's just fine with you.

Taking advantage of your overeager victim's moment of inattention, you rush forward, grabbing him/her/it by the head sinking your fingers a few inches into his/her/it's warm, gooey skin, as his/her/It's face contorts into a dopey expression of bliss as your new bitch quite literally becomes putty in your hands. Informing that he'll/she'll/it'll be doing things your way despite how enthusiastic he/she/it is about being your personal cum receptacle, you receive an ecstatic nod in response, as he/she/it bopps his/her/it's wriggling head back and forth rapidly in submission (not that you needed it), before pulling his/her/it's face towards your waiting fuckstick.....wait did his/her/it's head just come off?!

Intrigued by this strange development you flop down on the slime's headless body as if it were some sort of warm bean bag and relax, taking it's disembodied head and lowering it towards your hot throbbing cock. [If Balls Present: and swaying nutsack.]

[If balls present] You lower your bitch's head down to your sack and press it against your testies, rubbing his/her/it's face in your cum sack impatiently. Finally catching on (took it long enough) he/she/it opens his/her/it's mouth and wags his/her/it's tongue at you teasingly, before wrapping it around one of your nuts as if they were succulent grapes. After teasing your testies individually he/she/it sucks them both into his/her/it's steamy tunnel letting both your sperm tanks bask in the unnatural warmth of his/her/it's oral prison, the slime gurgles and slurps on your balls like a jawbreaker puffing out his/her/it's cheeks [a little] [as if it were a squirrel with a face full of nuts (heh, nuts)] [tremendously, your huge sack displacing much of his/her/it's face, all visible through it's translucent membrane], running his/her/it's hot syrupy tongue around every inch of your sack, the vacuum like suction of his/her/it's mouth causing you to groan in a hysteric fit of pleasure.

Unable to endure the obscene amounts of pleasure you receive from the simple act of having your balls sucked any longer you try to pull out but meet significant resistance, startled you pull his/her/it's head back until you see your sack emerge from the viscous hell that is the slime's mouth. With an final act of defiance the slime suckles **HARD** on your nuts and lets them free with an audible "**POP**" leaving a raspberry on them. Disapproving of your pet's insubordination you promptly chastise your portable face fuck with a of slap your dick, your blow rippling across his/her/it's face with a satisfyingly wet *smack.*]

Taking his/her/it's head you place it on the tippy top of your cock, watching as it slides down your dick with several sexy gurgles and a long wistful moan, making your pecker even more turgid. Ever so slowly you thrust your hips, bouncing the slime's head up and down drawing

even naughtier sounds from the head being repeatedly impaled on your cock faster and faster until, the soft slimy *smacks* become loud enough to echo for a moment before the next. The only thing more magnificent than the heat of the slime's head is the first class show you receive through your disembodied onahole's clear membrane. You can see every contraction that causes your cum whore to gag on your manhood, every ripple of his/her/it's stretched skin caused by your throbbing cock, sporting a dopey grin you lie back against the slime's body and thrust, overwhelmed by the constant sensory sextravaganza.

Feeling that you're close to your limit, you draw his/her/it's head up and begin to fuck it savagely, thrusting in, out and back again with animalistic grunts, drawing loud squelches, slurps and screams of pleasure from your handheld cum dumpster. Your twitching prick fills the slime's head with small bubbles of your hot precum, a prelude to your inevitable climax.

[If low cum amount] Rolling over, you pound the slime's head against the ground with several forceful pelvic thrust, entrenching your dick flesh as far as it will go into your makeshift condom, before ejaculateing wildly painting the slime's translucent flesh with your long delayed load, as small streams flow out of his/her/it's nose. Still panting from the entire ordeal you pull the inflated head off with a long messy *sllllurrrp* before tossing it back towards the fumbling body behind you, quite pleased with yourself.

[If high cum amount] You grin devilishly as you feel the thick globs of cum well up within you. Turning to the slime's headless body you fellate yourself with his/her/it's head at a breakneck pace, slapping the head against your crotch as fast as you can, attempting to draw as huge a load as you can before you perform your final charitable act by "returning" his/her/it's head.

Blowing a sharp whistle you, get the slime's stumbling body to wander towards you before you cum....round gobs of spunk traveling up your dilated urethra, which soon exit your gushing cum slit filling the slime's head with gouts of your hot seed and ballooning it up to freakish proportions, thick runnels of your spunk gushes out of it's nose and ears before you release it. The utterly abused slime's head is propelled off your cock, spluttering streams of your spoooge mid air before it forcefully collides with it's body knocking it prone. With a smile you click your heels together and whistle a merry tune as you move on.]

====> Scene: Fuck that slime's cunt. Action: Fuck that slime's pussy?

You grin as you look on at the helpless goo girl while she cooes at the sight of your [compact][erect][bulging] package, slipping her fingers into her [cunt] and jilling her sloshing hole, letting you hear the moist slicks of her box. Treated to the sight of the whore who was so aggressive just a moment ago, your [dainty][hard][huge] pecker stiffens as your ears are

assaulted by the lewd sounds coming from that juicy snatch. Licking your lips slowly you pin the debilitatingly turned on slime slut, pressing your lips against hers as you slide your tongue into her warm, moaning mouth, swirling it around as she wraps her sweet oral appendage around your own. Gasping in surprise you pull out as your tongue tingles with an arousing heat that hits your loins instantly making your already rock hard prick dribble pre, giving her a thump on her head in chastisement your eyes widen as she moans again, the force of your slight flick rippling throughout her wobbling flesh; well isn't she just full of surprises, if she liked that she'll love what's coming next.

Discarding the offending garments, you let the naughty slime bask in the presence of your glorious, [dainty][stiff][monstrously hung] pre dripping prick (small, big, huge balls) (and moist/dripping/slavering fuckhole)

====> Scene: PC gets a blow job. Action: Get some head? (For the big ole dicks! Status: In progress.)

As the defeated slime slumps down on his/her/it's lower blob huffing raggedly in exhaustion you cannot help but find your gaze shifting to the translucent creature's mouth. His/Her/It's steamy oral orifice fogs the air around him/her/it visibly, viscous strands of runny slime seep out of his/her/its mouth. His/Her/It's panting tongue slips out of it's mouth just hanging there for several moments, swaying to and fro invitingly just begging for you to take it's sweltering, oral cum sponge.

The slime's eyes widen in awe, as it watches you cup your big, bulging cock through your clothing/armor. Removing the offending garment to let the slime bask in the sight of your [massive] [enormous] [towering] fuckstick, savoring his/her/it's expression as his/her/it's eyes drink in the sheer amount of cockmeat placed before him/her/it. Pointing your powerful pecker in his/her/it's direction, you stride up to the dick entranced cumslut and place the crown of your cock against his/her/it's soft lips, telling it.....no demanding that he/she/it service your impossibly, thick schlong.

Still under your twitching dick's hypnotic charms, the slime opens his/her/it's mouth obediently....if he/she/it had any idea what you have planned it would have gotten away from you as soon as possible; oh well. Slipping the tip of your massive [cock] into the warm orifice your oral slut has so graciously provided you with, you slide your shaft into his/her/it's mouth as far as you can, brutally stuffing your behemoth of a [cock] down his/her/it's throat until you can see the length of your thick cock throb inside of it's translucent windpipe, moaning in satisfaction as he/she/it chokes on your twitching fucksitck his/her/it's mouth gaped into a welcoming "O"

around your hot, invading member. He/she/it groans mindlessly around your girthy [cock] as his/her/it's body begins to slurp upon your [huge][

==> Scene: Titty fuck. (Status: Done)

Ever since you first saw this slime the only things on your mind were the pair of [petite] [luscious] orbs attached to that unnaturally [thin] [voluptuous] frame, and now that you have her, all you want to do is slide your [slender] [thick] cock against those bouncy jello jugs until you paint her face and transparent tits in a thick layer of hot spooage.

She follows your intense gaze down to her [modest] [ample] [huge] rack and looks away in embarrassment before sinking into her lower mound, expanding the puddle of slimy goo until her gelatinous jugs are level with your crotch. Finished she subtly puffs out her breast as if offering them to you on a silver platter, which is all the encouragement you need.

You remove your clothing/armor and rub your schlong against her face, bringing it to full attention within moments soaking up the gentle warmth courtesy of her aphrodisiacs, she eyes [your small cock with a hint of disappointment] [your huge prick with a very slack jawed expression, utterly astonished at the size of your massive member] your dick with a look of hunger as you place your [small] [large] [huge] [enormous] cock on her face and slide it down towards her bosom slowly, as it nears her lips she can't help but loll out her tongue and drag it sensually against your descending phallus, coating it in aphrodisiacs and saliva as your scepter nears the end of it's journey to its throne.

Letting your insatiable urge to have her wobbling jugs, engulf your pecker overwhelm you, you plunge your prick into her soft, wet cleavage, burrowing your dick inside her warm, gooey tit flesh until [your dick disappears between her tits.] [you can see your dick appear on the other side of her rack.]

(Kawa note: at this point, I split the scene up so non-nipplecunt slimes skip ahead to the "nah" scene. ==>)

Basking in the feeling of having your cock so perfectly cocooned in her moist tit flesh you simply stand there as your prick hardens further from the increasing heat emanating from her tits, her supple flesh caresses your throbbing dick molding and squeezing your rod with gentle *slicks*, your moment of reverence is suddenly broken by a long throaty cry of passion. Looking down to find the source of the disturbance you discover to your utter shock and growing arousal that she's wildly driving her fingers into her nipples!

You can only watch in splendor as the little whore demonstrates the abilities of her alien anatomy, opening her cunt like nipples with a soft *slick*, before closing them again just as soon. As you begin to thrust into her cleavage she speeds up to match your pace, sure enough you find yourself wondering just how tight those lewd, squelching nipple holes are.

Action: Nah just get a “Normal” tit fuck.

Action: Nipple cunts! (Will add multi cock variants in the future.)

====> Scene: Nah. Action: Nah just get a “Normal” titfuck (or non nipple cunt scene, since it seems to be a bodytype mod/TF to nipples can we get lipples?) Warning Ahego and breast expansion/inflation ahead.

You moan, arching your back as your [dainty][hard][enormous], throbbing [BACON] penetrates her soft, pliant titflesh, rubbing against the warm, slippery orbs with sloppy wet squelches. You thrust your hips rapidly, slapping the slime girl roughly in her membrane several times, drawing ecstatic moans from her drooling lips as you stimulate her overly sensitive skin.

[If large BACON size] Your twitching [BACON], pushes past her rack and bumps against her parted lips as you pound your hips into her jiggling, gelatinous knockers you can feel her lolling tongue brush your thick cockhead several times coating the already hot, tip in her burning, libido enhancing saliva. Desiring another taste of her sweet mouth you tilt your [BACON] up and jam it into the whore’s unprepared throat, bulging the transparent flesh with your excessive amount of cockmeat, the bitch’s collapsing mind can do nothing else except force her to bob on your knob and gag audibly all the while as her normally vibrant solid eyes go blank from your forceful thrust, utterly overwhelming her thought processes with the stimulation that she receives.

Gurgling on the shaft lodged deep into her windpipe, she groans and melts into her blob as she hammers her face onto your [BACON], while you position your [BACON] on her narrow frame and push your hips against her abused body, spurting a thick load straight into her mouth. The spooge that doesn’t spill out of her mouth and squirt out of her nose is pumped directly into her body, painting her membrane a lewd, milky white, ballooning the tits you seek to brutalize with your rock hard, monstrous [BACON] another couple of cup sizes. Struggling with the weight of your throbbing, godly [BACON] and the new size of her massive tits she’s forced to arch her back to hold herself up.

[If normal BACON size] Bouncing your [Hips] off the slime’s tities with groans of pleasure, you fail to notice that rather than sliding your hot, thrumming [BACON] between her slippery

knockers, you've actually seemed to penetrate into the chasm between her jiggling jugs. Shocked by this development, and the warm, inner membrane caressing your twitching [BACON] you release a few spheres of hot pre into her hot interior and slam your hard [BACON] home again, drawing a moan from her lips and a lewd squelch from her body, as you ram your [BACON] into her body faster with echoing, wet smacks. You carry on in this way for several minutes dipping into the sloppy pussy like hole you've dug between her tits, and slapping your [hips] off of her wiggling mounds until you blow filling her with your seed [If low cum amount with normal BACON] bumping her breast up a size from your long delayed wads of spunk [If high spooge amount with a normal sized BACON] inflating her bouncing boobies with a nice, long splurt from your gushing cumslit rapidly giving the poor goo girl a heavy set of wobbling orbs to weigh her down, while you turn her flesh a sickly white.

[If you're packin a small strip of **BACON**] Slipping your [**bacon**] in with a slutty sigh of pleasure you rub your [**bacon**] into her wiggly rack as you dribble hot pre onto her warm, slippery jugs making her groan in delight as your steamy pre cum coats her breast providing a little something extra to lubricate her knockers. Shuddering as your spine tingles in the most delicious way you ram your tini [**bacon**] into her wobbling tits, savoring the smooth texture of her round mounds as she looks on in disbelief, groaning in rapture as you thrust your compact, delectable [**bacon**] into between her tits, teaching her that good things always come in small packages...speaking of cum.

[If you've gotta small [**bacon**] and shoot small amounts of seed] Rocking your [Hips] to and fro you pant raggedly as you tell the goo girl how much spunk you're gonna coat her tits with until you've got her begging for you to ejaculate, her screams echoing as she lets all of Nox know that you totally owned her, driving you over the edge. You spurt a few drops of sperm as you slump against her breasts panting and telling her how awesome that was...yeaaa, wait did her tits grow a bit?!

[If you've gotta pea shotta and you're blowin a good load] Rocking your [Hips] to and fro you pant raggedly as you tell the goo girl how much spunk you're gonna coat her tits with until you've got her begging for you to ejaculate, her screams echoing as she lets all of Nox know that you totally owned her, driving you over the edge. Dipping your small, turgid [**bacon**] into her cleavage as deep as you can you blow your hot, sticky wads of cum in her wobbling breast, as she sighs complacently and moans, cupping her breast as she absorbs your spooge into her jiggly tits.

[HOLY FUCKING SHIT WHERE IN THA HELL IS THAT CUMING FROM?!] Rocking your [Hips] to and fro you pant raggedly as you tell the goo girl how much spunk you're gonna coat her tits with until you've got her begging for you to ejaculate, her screams echoing as she lets all of Nox know that you totally owned her, driving you over the edge. Damn.....just damn, her eyes widen in complete and utter terror as your little [**bacon**] explodes, releasing a torrent of

sweltering spunk over her body, you blow your load till she's completely glazed and your spunk is running off of her body and dribbling on the ground. Your [bacon] is dragged down with her tits as they are inflated several cup sizes, as your spunk sloshes within her cum color painted rack.

[All lead to this] (Remember people the power of bacon is not to be trifled with.)

Intrigued by this starting development you smile as you appraise your slutty, [jizz colored] cunt's newly expanded breast, groping the jugs roughly as you sink your fingers into the malleable skin forcing her to cry out in sheer, uninhibited bliss as you feel the sloshing seed you recently deposited into her tits. She shakes her head from side to side pleading with you to stop, that she'll go crazy if you keep filling her, telling you that she can't take anymore stimulation to her already sensitive and engorged tits. Unfortunately for her you've already made up your mind to break her and dump load after load into her till she shatters; You politely share this little fact with your gelatinous sperm receptacle, savoring the look of terror and near mindless need in her eyes. She backs away slowly hoping to get away from you and your wicked ways.

Action: Wrap it up. (Two paragraphs, large/small variants)

Action: Break that bitch. (Two paragraphs/w domination test)

====> Scene: Finish up. Action: Wrap it up.

Staring into her nearly blank eyes, you tell her that you didn't mean to nearly drive her insane from the amount of cum you recently deposited straight into her warm, gooey innards (as much fun as that would have been) as you press your hands against her [bigger tits][engorged rack] and massage them slowly. The goo girl brings your hot, twitching [BACON] to her slick, pillowy mounds and slaps it against them gently, making your turgid [BACON] even harder with a generous dose of her aphrodisiacs as she slurps the crown into her moist, sweltering mouth. You groan as your gelatinous cumslut tickles the tip of your spoogeslit with her syrupy tongue quickly, teasing another load out of you, ready to bump her bust up another [cup][few cups].

Squishing your well lubricated [BACON] between her breasts again with a nice, wet smack, your canopy of moans picks up once more as you thrust into her cushiony jugs, watching with satisfaction as the jiggling orbs slap together, applauding your efforts as her mouth hangs open and spittle falls from her lips as she cries out in bliss.

[Small bacon] Your diminutive rod is completely cocooned in her rippling titflesh, caressed as your every motion sends vibrations throughout her protein form. Leaning against her body your plow her plush pair of tits quickly, already feeling the hot spunk well up within you again.

Letting out a savage roar of utter, satisfaction you freeze as your cock spasmed wildly within her cleavage blowing it's [light, but thick][hot, creamy][overwhelming, torrential] load all over her tits, marking them with you cum, before sliding back and coating her face with a second shot. Thoroughly satisfied you leave her gasping and dragging hands full of your smoldering seed up to her mouth, drinking it as if it were some precious life giving fluid. Goo girls are awesome, you should do this again sometime.

[Large bacon] Your thrumming, behemoth of a [BACON] slaps against her face again on the first thrust despite her enhanced titties, frowning you express your displeasure at the fact, telling her that you really wanted to have your hot [Bacon] smothered by her squelching, bouncy boobs. She nods eagerly at your statement like the jizz hungry cumdump she is and opens her mouth nice and wide again, just begging you to jam that thick, [bacon] into her throat again. With an invitation like that how could you possibly resist? You slowly fill her mouth with an ever increasing amount of fuckmeat, streaching her mouth with the sheer size of your godly [bacon], you slide your shaft along her wiggling mounds as you watch your long, [bacon] arrive at her throat through her transparent cum colored membrane until it's been nearly stuffed down half of her body. Invigorated by the sight of the jiggly slut's nigh endless elasticity you rock your [hips] back and forth, savoring the gurgles and slurps you receive from aphrodisiac filled mouth.

The pitiful slime girl slams her head into the [bacon] stuffed into her mouth, moaning uncontrollably as she tries to draw that hot, spunk out of your fuck tool, slowly snaking her tongue around your wide, saliva coated shaft and jerking it rapidly at the base, you can't help but mash your [hips] against her squishy jugs and pump your load into her. Faced with the waterfall of spooge she screams in rapture, drinking down the warm, sticky stuff straight from the source. As she chugs your jizz her tits balloon up to ludicrous proportions and by the time you're done cuming they look like small bathtubs, acting as anchors to hold her down as you slowly pull your shaft out with a moist POP, slapping her face with your mighty [bacon] a few times you leave her with a few more parting spluts before you head off, knowing you got your dick/(if balls: rocks) off.

[Normal sized bacon] You drive your shaft into her breast again and again, panting with your protein partner all the while. You stare into her eyes, drinking in that dopey expression plastered on her features, watching that long loll out uncontrollably. (Gonna get back to this latter, starting on penetration scenes)

[TestSkill("Domination")]

Bodshivita's Note: Domination is a skill, I see the pc getting a lot of milage out of. You can become dominant over more submissive partners (Bottoms), exert your will an the like, and even

force other dominant characters to do your bidding like that one cheetah chick (an already established top).

[(Yo slick you suck) Unexperianced/0-Amature/1] You have to struggle with her in order to get her to do what you want and by the time you finally get her to do your bidding, she's already proven that you can't top worth a damn. (Slime is more defiant during the next two paragraphs or so.)

[(Good shit,omae. You can break a bitch) Adept/2-Skilled/3] Your commands carry enough weight to cause her to cease her ultimately inevitable struggles, stopping her as she nods in grudging acceptance. (Goo girl is gonna be a good girl.)

[(Damn son/gurl! You're scary as fuck!) Expert/4-Master/5] With a snap of your fingers you cause the gelatinous cum dump to stop cold in her viscous tracks, you tell...no command the whore to present those tits before her master/mistress so that you may do whatever you please. (Goo girl becomes putty in your hands)

Now that you've got her again you proceed to thrust your excited [cock] into cleavage with renewed vigor drawing (poorly restrained, gasps) (audible groans) (ecstatic squeals) pleasure from her soft, yawning lips as you

====> Scene: Become "one" with the slime. Action: Do science to him/her/it! (Status: Next scene please! I wanna wear a slime around like a sexy symbiote!)

Gazing at the slime's body, you find that you are far more curious than aroused, wondering how such beings could exist as they do. Reaching out, you gently caress the slime's cheek drawing a soft moan from it as the tips of your fingers tingle with a surprising warmth. Spurred on by this sudden development you take your experiment a step further.

Pressing the slime's body against the ground you begin to explore his/her/it's body touching, kissing and prodding here and there, all drawing nearly uninhibited groans of pleasure as his/her/it's body temperature begins to increase with his/her/it's own arousal. Leaning down you press your lips against the slime's and kiss him/her/it passionately, coiling your tongue about his/her/it's syrupy sweet tongue whilst twining your fingers in between it's own. You relax against his/her/it's warm, squishy lower mound, surrendering yourself to this exotic sensation and inadvertently causing pleasant ripples throughout his/her/it's body. Overwhelmed by your body's motions your pet turns its head away, crying out with a long throaty moan that vibrates throughout his/her/it's melting form. Seizing this new opportunity you slide your tongue back into it's mouth again, the interior is hot though not unpleasantly so...quite the opposite in fact,

carrying a subtle aftertaste that you can only associate with it's color. As you orally rape the slime, it dawns on you that you're slowly sinking into it!

Action: Suit up!

Action: GTFO! DIZ SHIT IZ WEIRD!

====> Scene: OMFG I CAN WEAR YOU HOME?! Action: Suit up! (Status: Nearly complete.)

A wicked idea forms in your mind, it's startling simplicity both **insane** and **bloody fucking marvelous**. Smiling innocently you take hold of the slime's face and kiss him/her/it with renewed vigor, your new "partner" embraces you just as eagerly lured into a false sense of security by your tenderness. You go on like this until the slime almost literally melts into your arms, the rising heat of it's passion making his/her/it's body especially pliant, that is when you strike.

Pressing yourself against it roughly, you force yourself further into the slime's body, your skin hits his/her/it's own with a moist slap as you prepare to plunge deeper into it's body. Utterly powerless to prevent you from doing so the lust consumed slime can only moan ecstatically as your fingers effortlessly penetrate it's overstimulated membrane, claiming more and more of it as your own. As your legs sink into his/her/it's gelatinous lower blob with several more naughty squelches the slime's body convulses wildly, spasming in a full body orgasm as you begin to brutalize it.

As the slime's body struggles to maintain its cohesion you decide to fuck away what remaining willpower he/she/it has, putting an end to his/her/it's pitiful struggle against your plans for him/her/it. (Insert suit up variants here)

====> Scene: PC leaves the slime. Action: Leave? (Done.)

You shrug and turn away, not wanting to fuck the shit out of your gelatinous captive at this particular moment, perhaps you can subdue it later when you need a nice hot screw/cum dump?

====> Scene: PC loss against a slime. (Status: Done.)

[Friendliness: Hostile]

You look on in horror as the slime creeps towards you slowly, his/her/it's mischievous eyes shifting into pools of barely restrained lust. Attempting to take advantage of his/her/it's ponderous pace, you try to right yourself and get away before it tries to have his/her/it's way with you, but before you have a chance to make a run for it the slime lashes out with a flexible tendril, wrapping it's wriggling appendage around your torso. As you try to pull the tendril slithering around your midsection away your brief struggle is cut short by the arrival of four more tentacular pseudopods, which quickly entangle your limbs binding them tightly and spreading them apart, putting your assets on full display.

Overwhelmingly arousing heat spreads from the tendrils and throughout your body making your nipples hard as diamonds, [your pussy juice itself involuntarily, while your clity jumps from beneath its hood engorging rapidly with blood] [your dick rock hard, as pre leaks from your hot tip and splatters against the ground with an steady *slick*, *slick*, *slick* sound] [your cum factories tense up ready to blow a nice, hot load on the spot] as the slime continues to advance in it's tortuously slow pace.

More tendrils emerge from the slime's body to caress your own, slipping it's prodding pseudopods beneath your clothing/armor and then about your naughty bits [jerking your engorged dick ever so slightly] [teasing your steamy snatch] [sucking on your loaded ball sack]. As it dumps more aphrodisiacs into your system, you become all too aware that it has you right where it wants you, and deep inside you know you want this just as much as it does. You watch with growing disinterest as he/she/it strips you of what little dignity your clothing/armor still afforded you, if you were in the presence of mind to see how you panted and moaned like a [bitch in heat] [stud in rut] you believe you'd be disgusted with yourself....but you don't care....you only want.....no need more of the pleasure the slime can provide you with.

====> Generic loss scene to female slimes. (Status: In Progress.)

Losing your self to the slime's constant exploration of your now fully exposed body, you fail to notice as it pulls your overstimulated form into it's cleavage, smothering you in it's gelatinous yet amazingly firm tit flesh.

Variant for female characters: The slime girl cooed with delight as it's probing tendrils find their way to your feminine honey pot as she drags her bubbly lips along your neck, tickling your [skin discript]. Arching your back in rapture as your body heats up again, your sensitive cunt drenches itself in it's own juices with the invading pseudopods prodding about your aching snatch.

As her sweltering gelatinous, body flowed over your own pinning you down under her weight as she turned her attentions to your burning, moist box. You're so debilitating aroused that it hurts and the bitch is taking her sweet time toying with your body as if you're some kind of a doll. she extends small tubes towards your painfully, hard nipples, the sucking circular heads of the tendrils latch on to your twin peaks, sealing tightly around them and treating your abused
