

(To be printed on the Resident Welfare Association, Housing Societies Associations, and Committees' Letterhead)

To all political leaders, organizations, and commercial establishments

We write to you seeking an immediate intervention and direction to remove the unauthorized and unwanted political & commercial hoardings, flex boards, advertisements, cutouts, buntings, hangings, billboards, etc., mushrooming in many areas in and around our premises, causing visual pollution, inconveniencing citizens, and irrevocable damage to the environment.

We strongly condemn this act as these illegal hoardings/flex not only affect pedestrian movement causing problems for citizens but are also non-biodegradable and an environmental hazard.

As members of the ----- society/association/committee, we appeal to all political leaders, organizations, commercial establishments, individuals, public or private organizations, institutions, to ensure the immediate removal of all such illegal hoardings/flex/promotions.

This act is against the spirit of our city and is damaging our cultural fabric. As 'Punekars', we stand united to make Pune the best city to live in and are committed to holistic growth. Your swift action will instill confidence in citizens toward political leadership, which is crucial at this point as residents/citizens are wary to vote and extend any support to establishments and parties that propagate or promote such illegitimate activities against the city and citizens at large.

We believe that given your citizen and development-focused leadership, you will take necessary actions immediately and issue directions across your political party to ensure compliance.

Regards,
Residents of
