## Terms of Service ( TOS )

Please make sure you read this ToS before contacting for a commission slot. Please notice you have only two feedback instances, unless I require feedback for any reason (aka. Designs, etc). I usually take about a week for a commission, but if there are any delays I will let you know.

### Commission Process

1. Contact: Send me an email to [Palavenmoons@gmail.com](mailto:Palavenmoons@gmail.com) or via *Furaffinity PM*. I do not use any other platform for commission talk. In the message please include:
  - Type of Commission: Color / Illustration / Character sheet and Bust / Halfbody / Fullbody
  - Concept for the picture: *Must be written briefly and to the point and on the first email*. As interesting as backstories are, they do not help with my work. Same goes with overly dramatized descriptions.
  - References: Up to two pictures per character as reference. Must match what you're asking: if you want a back view but send me a front view, it does not help me. You can add an extra picture for clothes / prop references. Remain brief. If more than one commission is requested with the same character, don't include more pictures unless for a specific reason.
  - If you want anything specific for the commission *please* include it in the initial email. Examples: a specific expression, pose, etc.

2. Confirmation: Once I confirm your slot, I will give you a price for the request and an estimate of when to expect news from me. At this point, *no major changes may be made to the commission idea request* as the price you are quoted is based on the concept already approved. Any additional props or design change added after the estimate will cause additional charges.
  3. Payment: I use Paypal.me for payments. The link can be found here: <https://www.paypal.com/paypalme/Palavenmoons> please do not include shipping as it is a digital good!. Payment must be cleared up to the Layout stage.
  4. Layout Stage: I will send you the concept layout for the commission based on the initial Concept / Request. Minor changes to the composition are to be addressed at this point, (Example: If you want an arm in another position). Take your time to look over the concept. You may request one redraw if the concept is not what you like or intended, but keep in mind discarded layouts can be used for other projects.
  5. Sketch Cleaning: I will redraw the Layout stage into a cleaner sketch. *If required*, I will send an update of this stage to double check details.
- 5.1 - Design: I will send you updates for design ideas, for you to pick from. Extra 2 instances of feedback for design and colors are included.

If you want extra feedback instances, let me know in advance. This requires a lot more time to the commission process that I have to be aware of before I commit to the slot.

6. Rendering: Rendering and detailing of the commission for each of the tiers.
7. Commission Sending: I will send the commission via Email or Google Drive. The file will contain the full resolution picture and a smaller one for uploading purposes. If you require me to upload the files separately due to OS incompatibilities, please do let me know ahead of time.
