Comprehensive Foot Analysis Experience

At our Claremont location, we offer a unique in-store foot analysis experience that sets the

foundation for finding your perfect footwear solution. This comprehensive assessment helps us identify pressure points, gait abnormalities, and structural issues that might be contributing to your discomfort. Through this analysis, we can determine exactly what type of support your feet need and recommend the appropriate shoes and orthotics accordingly. This scientific approach ensures that you're not just buying shoes – you're investing in footwear specifically suited to your foot's needs.

Custom Orthotics and Arch Supports

Sometimes, even the most supportive shoes need additional customization to address specific foot issues. Our Claremont location offers both over-the-counter arch supports and custom-molded orthotics designed to provide targeted support where you need it most. These inserts can be used with many of our shoe styles to enhance comfort and alleviate pain. Our trained staff can help determine whether custom orthotics might benefit your situation and guide you through the fitting process.
