sorry the "suggesting" tool

15:48

The screenshot shows a document editing toolbar with a dropdown menu open. The toolbar includes icons for list, selection, and editing. The dropdown menu has three options: 'Editing' (with a pencil icon and a checkmark), 'Suggesting' (with a document icon), and 'Viewing' (with an eye icon). Below each option is a brief description: 'Edit document directly', 'Edits become suggestions', and 'Read or print final document'.
