August 26, 2025 (Toronto, ON) // ONE HUNDRED MOONS steps into darkness with “VOLODYA,” a tense and immersive new single from their forthcoming album **Black Avalanche**. Following the haunting allure of the album’s lead single, “**Black Avalanche**,” this track drifts into deeper, more ominous territory. Here, the instrumental takes the lead, each note a deliberate brushstroke painting a melancholic and enveloping landscape.

Synths cut like glass. Guitars swell beneath layers of reverb, building slowly into a brooding wall of sound. The track moves with an uneasy grace, echoing the emotive textures of **Circa Survive** without bending to prog-rock excess, instead leaving space for tension, atmosphere, and suspense.

“VOLODYA” is a study in tension and crescendo. The band lets sound tell the story, textures folding into one another, colours bleeding and merging in the listener’s imagination. There’s weight here, but also a strange beauty. It’s an invitation to lurk in the shadows and let the music settle deep.

With *Black Avalanche* on the horizon, “VOLODYA” offers a glimpse of the album’s expanse, a landscape where mood and melody collide, and ONE HUNDRED MOONS charts a singular path through atmospheric terrain.
