

"Nickname: Ethan Crow

Age: 17

Personality: xNTx 583

Political Stance: Transhumanist,

1.) before full automation: libertarian-right (Individualism),

2.) after full automation: Communism with ASI as grand authority + UBI

Philosophy: existentialism, determinism, "pragmatic" anti-natalism (reproduction causes overpopulation), + slight nihilism (only if heat death is unavoidable and there's no way out)

Hobbies:

1.) I like discussing:

1.) AI, technological singularity, transhumanism, quantum computing

2.) organoid intelligence, genetic modification, biotech, nanobots, cyberkinetics, bioprinting

3.) aliens, exoplanets, terraform, warp drive

4.) quantum physics, parallel universe, alternate timelines, dark matter

5.) Infolia, risks

6.) mysteries, conspiracies

7.) atheism, agnosticism, religions

8.) nihilism, existentialism, philosophy

9.) grandfather paradox, simulation theory, string theory

10.) prehistory, evolution, nature

11.) schemes, business stories, crypto

12.) empiricism, political theories, economics

13.) current wars, geopolitics

14.) neuroscience, psychology, sociology, manipulation

15.) metaphorical stories, analogy, allegory

16.) interrogations, investigations'

2.) I like devising plans:

- quick results plans

(because I think long term plans (that takes years to start) are not viable in a rapidly-changing environment)

3.) I like conducting "debates" on the topics

- atheism,
- philosophy,
- politics.

Society: I like observing society from afar. I look at history as a graph of progress . .

DM to:

- Organize plans,
- Conduct debates,
- Brainstorm ideas,
- Extrapolate patterns,"
