Review Action Steps from Last Meeting:

1. Mental Health Subcommittee will continue to work on a more concrete plan to collaborate with community mental health providers to support the social-emotional needs of students and caretakers.

Report from Subcommittee(s):

The mental health subcommittee reported on progress on the Healing the Cove speaker series. This initiative originated from the PCAT needs survey earlier in the school year. One of the highest rated needs was mental health support for students and parents/caregivers. The subcommittee's intent was to provide practical information from community providers/experts and thereby connect families to services in the community. Given the current restrictions on personal contact, the subcommittee felt it was appropriate to make these services available online, free of charge to Pattonville families and to the community.

- The online series will run from December to May; Pattonville School District will host the sessions and moderate as the experts engage participants. Members of the subcommittee will moderate each session.
- The Registration Page is up and running
- A calendar of sessions, with descriptions and a link to register can be found here: bit.ly/healingthecove
- The flyer for the series is ready for distribution and can be viewed here: [Healing the Cove Flyer](#)
- The Pattonville Community Relations Office is getting the word out through PeachJar and social media and the Pattonville Highlights.
- Attendance prizes may help boost interest and attendance. Some organizations/schools have already offered to sponsor sessions. Sponsors are welcome.

The PCAT group was in support of the work of the subcommittee, the content of the sessions and for proceeding with getting the word out for registration. There was discussion about supporting online learning. It did rank significantly as a need during the PCAT survey in September and the group consensus was that this was still a need. The subcommittee will explore the possibility of adding it to the series.

New or Ongoing Concerns:

- financial needs are growing, particularly in the area of rent
- students are struggling academically.

PCAT Areas of focus:

At this time the focus is to support the Healing the Cove series. The new concerns may be the discussion of the next meeting

Action Steps:

- Subcommittee will explore a session for online learning support
- Subcommittee will proceed with advertising and registration.

Future Meetings:

December 10
January 14
February 11
March 11
April 8
May 13
