

8.2 - učebnice matematiky, hodina biologie

If you want to describe your textbook or your class (Czech class, math textbook, etc.) in Czech, you will literally say *class of biology*, *textbook of math*. The crucial bit of information here is that you say of. What case do you need here then?

Here's a reminder of your endings:

Genitive (koho, čeho)

	MA	MI	F	N
Hard stem nouns	<i>pána</i>	<i>hradu (-a)</i>	<i>ženy</i>	<i>města</i>
Soft stem nouns	<i>muže</i>	<i>počítače</i>	<i>růže / koleje / věci</i>	<i>moře / náměstí</i>
Adjectives	<i>-ého / -ího</i>	<i>-ého / -ího</i>	<i>-é / -í</i>	<i>-ého / -ího</i>

The main words we'll need to keep in mind are our subjects and the following words:

učebnice - textbook

kurz - course

hodina - class (lit. hour, since that's how long most classes last).

učebnice matematiky - a math textbook

kurz biologie - a biology course

hodina geologie - geology class
