OTHER INFO

- is a computer science student, yet knows absolutely nothing about what he's doing**
- follows random girls in the university, most of them being light-skinned because he can't stand dark-skinned people**

- has a warped view on what help is**
- is a fucking incel, tried to kiss a girl and have it play like the shit he sees in anime, only for it to not work and fail miserably**
- is dumb as absolute shit, will constantly ask people for fucking answers until he gets what he wants, most of the time not giving anything in return**
- replies to messages almost immediately, as if he's like**

watching them (creepy, yeah)
- is very shallow about topics,
will continue to kiss an
unbelievable amount of ass
just to get his victim's trust on
something
- is secretly a racist, will
constantly glare at white
people (especially women)
while sneering at black people
- only talks to people when he
thinks he needs help, not
because they're his "friends"
- has a shit ton of backers on
his social media accounts, it's

**almost as if that he has
prepared a set of friends for
back-ups, in case his constant
ass-kissing goes awfully
wrong**

**- only does things whenever
they become popular, only for
him to hopelessly abandon it
if said trend goes "lame",
according to his shallow
normie standards**

**- browses instagram for
watching women in skimpy
dresses**

- has no concept of what

privacy is

**- claims to do what he tells
others to do but doesn't do in
time**

- is a hypocrite

**- does not help whenever
there are group projects, only
does what he thinks costs the
least amount of manual labor,
and claim that he did shit by
doing said position**

**- uses slang just for looking
hip**

**- does not know how to write
a fucking essay**

**- only passed school because
his high school buddies
helped him rise**
