Physical Description

Heavily scarred monolith of a man. Broken upper horns, which he intentionally keeps jagged to use as a goring weapon in combat.

- Dark Armor
- Conversion Hilt Lightsaber (Red Blade)

Salomon Kerkis has a sick sense of humor, viewing the world through dark colored glass. He has a biting sense of black humor, often laughing at things that most people would find reprehensible or down right soul crushing. As a result, those that are not used to his brand of humor often find Salomon Kerkis downright unbearable or overly morbid. At the same time, his cynicism can be useful for seeing through the optimistic altruism of those he encounters.

Salomon Kerkis possesses a cold and completely uncaring demeanour. This will manifest itself in the fact that when push comes to shove, Salomon Kerkis will just as soon leave a struggling ally behind rather than put themselves in danger. While this may ensure his survival, it often leaves him as an outcast amongst his peers.

Salomon Kerkis is not afraid to exploit any advantage or position of power he has when dealing with others, and relies on a combination of fear, intimidation, manipulation and shows of strength to convince others to compromise and lose. Salomon Kerkis can be quite callous in his dealings with others, and never gives up his power. This has earned Salomon Kerkis with the reputation of a “bully” and can often make negotiations difficult before they even begin.

Salomon Kerkis tells it like he sees it, when he thinks it; and he doesn't try to sugar coat what he says.

Praetorian Form

Salomon Kerkis is utterly devoted to success in combat, no matter the mission, no matter the cost. He has spent his life building himself in the image of war, utilizing a dogmatic regimen that has lead him to a single-minded obsession with military success and requires intense physical and mental training. This training, however, has come at the cost of anything resembling empathy or concern for others - even his superiors and subordinates.	Even the most gifted of weapon masters understands the importance of physical fitness and disciplining the body with through martial arts training. Salomon Kerkis has trained vigorously in unarmed combat by fusing <i>Teräs Käsi</i> and <i>Echani</i> with other unconventional forms. While this martial focus helps bolster his prowess in close-quarters combat, Salomon Kerkis is still limited in scope when facing down a less direct or ranged threat.
