Please either place your audition either in the UTA Audition Channel, DM it to Spirit Directly, or Send it via email to Spiritshift96@gmail.com

- Be sure to state your name, and who you're auditioning for.
- If you're going to do all three test lines, be sure to space them out and label them in the recording OR separate the recordings.
- You are also free to adlib any line you think might better showcase your range.
- Reading Lines from the game is also acceptable.
- Multiple characters would benefit from the listed accent next to their name, but the accents are NOT required. Try your best.
- You CAN audition for more than one character. Just separate and properly name it.
- These positions are for a FAN MADE project, there is no payment, but you will get free character art in exchange for participation.

- There are a TON of other characters we will most likely need voices for. Especially other characters in the overworld, dark world, and later, cyber world. Anyone not picked for a main voice will still definitely be in the running for any of these other characters. So zero pressure.
