

# TRADES INFORMATION

My simply not-so-simple list of things I will and won't accept for trades. Please read everything before reaching out to me about trades.

## PLEASE NOTE!!

Before we continue, please note that I am a cautious man and will probably be very selective with who I choose to do trades with.

With that being said I will most likely NOT accept any trades with accounts that have little-no videos or have very inconsistent videos (an example: a fursuit maker who claims to make suits but all of the videos are a different style with a different background), hope that makes sense.. I am also most likely to only be doing trades from people in/close to Australia because I hate shipping prices, but like ask anyway because there will be exceptions to that if I'm interested enough.

Most of the options I have for my part of trades are able to be bought so feel free to reach out with money offers as well.

Anyway!!..

## I would LOVE to trade FOR:

- Art of my character
- Fursuits - partial/semi-partial
- Physical media - record vinyls and cds
- Band Merchandise - \*almost\* exclusively MCR or SOAD merch
- Therian style animal masks - custom made, pre-made, or pre-bought\* (from another creator\*)
- Custom fursuit parts
- Old cameras - preferably working, film or digital

There may be more that I can't remember right now so don't be afraid to ask!

I don't bite.

## Things I WONT be trading for:

- Fandom merchandise (applies to fandoms like TADC, Hazbin Hotel, Animes, Arcane, and similar)
- Taxidermy or similar oddities (I have too much already)

## Things I MIGHT trade for:

Could be considered, no guarantee, but please don't be scared to offer anyway!

- Kemonomimi gear
- Bontail/Hypermotion tails
- Pre-made fursuit parts - paws/feet paws/ arm sleeves/ect
- Concert tickets (idk if people do that but I'd gladly take some if it were a band I like and was located reasonably close to me)
- Electric guitars/bass guitars - if working and I like how it looks 🙌

## Things I would LOVE to trade you:

- Custom or pre-made therian style animal masks
- Custom or pre-made fursuit heads
- Custom fursuit parts - tails
- Custom or pre-made kemonomimi gear - ears, tails
- Custom silicone hypermotion tail - a rough silicone base with or without a fluffy fur cover

There may be more that I can't remember right now so don't be afraid to ask!

## Things I MIGHT be able to trade you:

- Custom plushies - made from scrap (with a pattern) or a customised plushie with a pre-existing plushie base, like those custom Douglas Dogs essa's on TikTok for example
- Refurbs or touch-ups of other masks - using a pre-existing mask from you (whoever is trading me) and freshening it up with brand new fur,ears,paint,ect

## Things I WONT be able to trade you:

Most of these is because of my lack of confidence in my ability to provide quality options of said things, with that being said it may change in the future

- Art (I'm not very good)
- Specific fursuit parts - paws/feet paws (never made those before)
- Weird stuff, I shouldn't have to elaborate on that.
- Personal suits/masks - unless stated specifically in a video featuring a mask/suit it is not up for trade/sale and will be an instant no from me
