

Hi, my name is Mark Flewelling, I'm a local artist/woodcarver to the Fredericton area. I've been making art all my life (carving,drawing) over 10 yrs ago, I decided to make it my full-time hobby, I suffer with mental illness (anxiety and depression) and turned to art to redirect my negative energy/feelings and turn it 180° to something positive for me and for clients as well. I'm a self-taught woodcarver, and incredibly some of my stuff has gone all over the world. I carve different styles, and challenge myself with unique subject matter to self learn how to do it., never stop making art !
