

Software Developer

Name: Rodgers Mogaka

Email:

mogakaroy@gmail.com

Phone No: 0726746234

Objective:

As a dedicated and innovative junior software developer, I am driven by a relentless commitment to crafting efficient, user-centric applications. I am excited to harness my technical expertise to collaborate within a dynamic team, where I can actively contribute to the creation of cutting-edge software solutions. With an unwavering eagerness to learn and adapt, I am seeking a challenging and supportive environment that nurtures both personal and professional growth.

Education:

Computer Science.

St Paul's University, Nairobi Kenya.

Software Engineering Programme.

Africa Leadership X (ALX)

January 2023 – March 2024

Qualifications:

- Proficient in Python programming language, with experience in Django, REST APIs, MySQL, JavaScript, HTML, and Tailwind CSS
- Passionate about software engineering and committed to continuous learning and skill development
- Demonstrated ability to grasp concepts quickly and apply knowledge effectively in real-world projects
- Excellent organizational and time management skills, capable of juggling multiple tasks and meeting deadlines
- Strong communication skills, both written and verbal, with the ability to collaborate effectively with team members and stakeholders

Experience:

- **Freelance Python Developer (Remote) | QOVES Studio | Dec 2023 - Feb 2024**

Developed an Instagram Bot using Python, Instagrapi library, and PostgreSQL. The bot mimicked human activities to e.g., automate follower growth, manage social media presence etc.

Optimized database queries for improved performance and scalability.

Conducted unit testing to ensure code quality and maintainability. Collaborated

with the remote development team to troubleshoot technical challenges and implement best practices.

- **Developed a Personal website** using JavaScript, and HTML, CSS, showcasing my technical skills and design sensibilities
- Contributed to open-source projects on GitHub, demonstrating my ability to work collaboratively and learn from experienced developers
- Software Engineering Student at ALX, actively engaged in coursework and projects involving Python, C programming, and Frameworks

Technical Skills:

Programming Languages: Python, JavaScript, TypeScript

Databases: MySQL

Frameworks and Libraries: Django, Flask, REST APIs, Tailwind CSS, ReactJs

Version Control System: GitHub

Personal Qualities

- Fast learner with a strong aptitude for grasping new technologies and concepts
- Organized and detail-oriented, ensuring tasks are completed accurately and efficiently
