

**Subject Line: Elevate Your Reach To The Next Level**

Hey Dr (Name),

I noticed your chiropractic only has two reviews on Google, even with the high-quality website you have.

Increasing your chiropractic's reach is a phenomenal way to expose your chiropractic to more people, therefore increasing your reviews on Google.

I had an idea to help you increase your reach and bring new customers into your chiropractic that are seeking relief from their pains.

In today's modern age where everything is done with social media, campaigning a Facebook ad directly to your target audience is an extremely strong way to boost your brand's reach.

Now, I've already made the facebook ad so you can try it out.

How do you like the ad? t.

(FB Ad)
