

## attracting a Breedable with a prompt:

When you meet certain requirements you can try to attract a breedable by creating a piece of Art featuring your Saliko and the specific breedable you want to attract!

---

### How to attract a breedable:

Breedables with a certain rarity just get attracted to Saliko with a matching rank or higher!

- Common breedables might get attracted to a Sharak ranked Saliko
- Uncommon breedables and lower might get attracted to a Parvo ranked Saliko
- Rare breedables and lower might get attracted to a Imadu ranked Saliko
- Very Rare breedables and lower might get attracted to a Nivshem ranked Saliko

While the corresponding rank gives you a basic litter chance of 20%, a higher rank elevates your chance by 10%

For example:

A Parvo ranked Saliko can try to attract a common breedable and has a chance of 30% to success!

A Nivshem ranked Saliko can try to attract a common breedable and has a chance of 50%
