We've started the new Billboard project this sprint. **When the feature becomes enabled, a new section will be added to the Recruitment configuration admin tool called "Apply page configuration"**. Each new field in this section will be hidden by default. Admins will be able to go to this new tool and determine which field will be visible or hidden to applicants on the Apply page for senate and non-senate recruitments.

One of the new fields that we added was the **Apply Page Link**. When enabled, this link will appear in the "Description" towards the end of this section.

Another field we added was the **Help Contact Email**. This information is provided in the "Contact information" field on the Details page for a recruitment. When set to "Visible", it will display in the "Learn More" section on the Apply page.

Finally, we added the **Basic Qualifications**. When set to be "Visible", it will appear under the "Requirements" section on the apply page. If any of these fields are set to "Hidden" then they will not display at all to the applicant.

Withdrawing your application

If you wish to withdraw your application from consideration, you may do so by navigating to the Position Details page of your application and selecting the link "withdraw your application". You will then be required to enter a reason for withdrawal before you can click "Yes, withdraw my application".

If you change your mind and wish to once again be considered for the position, return to the Position Details page and click "contact the hiring department".

We have also **updated the online Help documentation to include information on how applicants can self-withdraw their application.**

Bugs & stuff

- We fixed an issue with the timestamp for reused letters of references so as not to confuse the applicants on when they are provided by the reference.
- We updated the online Help documentation to further clarify how references can replace previously uploaded letters.
