

# Space Princess Wars

## Information Sheet

**Synopsis:** It's a tale as old as a time. A daughter home sick. A concerned parent reading her a story to help her feel better...only the story is their ginormously epic screenplay, "SPACE PRINCESS WARS," which is also a tale as old as time – a kidnapped space princess, a simple farm boy seeking to rescue his true love, laser sword fights, gigantic cat monsters, and killer robots. If it all seems a bit familiar, that's simply because he's writing an homage to older, better movies. A wild adventure comedy with fast spaceships, singing cats, vicious teddy bears and brilliant cyborgs.

**Auditions are open to students completing grades 3-8 this year.**
