

Pieces more or less average at 4x2. Can go smaller. Made from a basswood block. My sample pieces are not coated in any varnish out of personal preference and acceptance that it's unprotected, but yours will have a protective coating so the paint doesn't chip off.

The widths will have funny appearances like the ibis on the right (Above) and the feather on the left (Below). Just the nature of a 2D image carved and painted on a thick block.

The right piece has some felt glued to the bottom. I wanted it to feel more “complete” by having a softer bottom.

Every piece starts at \$30. These take me a significant amount of time to get done, and I have to take breaks so my wrists don’t get hurt. I haven’t made anything too complex, so I don’t know what really affects the price going up. We can talk through it though. Shipping probably won’t exceed \$10 [United States].
