

!!please read!!

This is the entire code of my myspace profile. paste this in the CSS box. I created it with an explanation for every piece of code so that it's easier to understand for the people who are only just learning css =)

feel free to use this as a base and tweak it to your liking, but please make sure to credit me somewhere on your profile, @Nieznajka on myspace. it would make my day :)

```
/* you can go to cur.cursors-4u.net they have a lot of options if you want to change the cursor*/
